1. INTRODUCTION

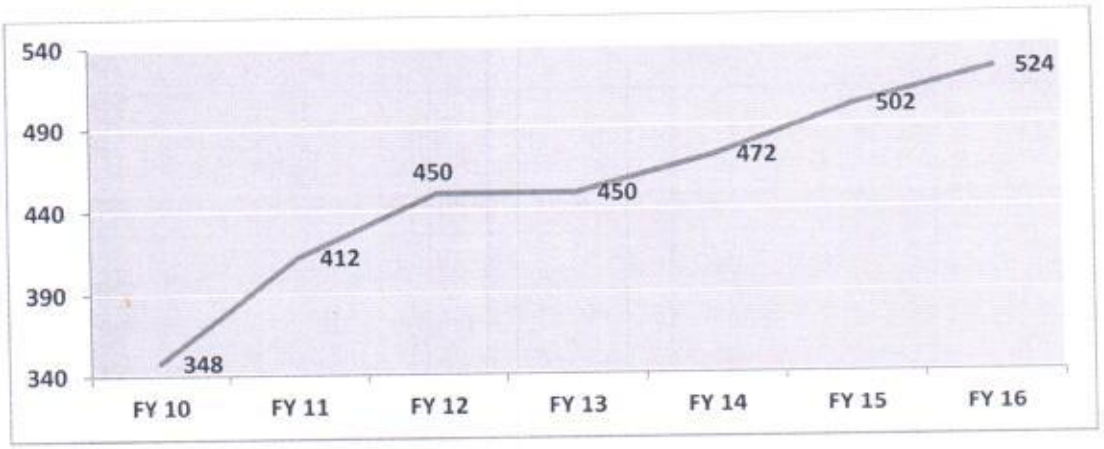
1.1. BACKGROUND

Uttar Pradesh being one of the largest states of India is also the most populous state of the country with is administrative capital at Lucknow. Ghaziabad, Kanpur, Moradabad, Aligarh, Meerut, Bareilly, Gorakhpur, Noida, Allahabad, Jhansiand Varanasi are known for their industrial importance in the state as well as at the national level. On 9thNovember, 2000, a new state, Uttarakhand was carved out from the Himalayan hill region of Uttar Pradesh.

With levels of literacy rate of around 70%, the state has abundant availability of quality human resources. Uttar Pradesh is a significant destination for investments in manufacturing industry, tourism and infrastructure.

Power sector is a critical infrastructure element required for the smooth functioning of the economy. An efficient, resilient and financially sustainable power sector is essential to stimulate growth and prosperity in the state. The availability of reliable, quality and affordable power can ensure growth of all sectors of economy including agricultural, industrial and others.

The Power Consumption in Uttar Pradesh has grown from 348 kWh per capita consumption in FY 10 to 524 kWh per capita consumption in FY 16, the electricity consumption in the State has grown at a CAGR of 7.06%, as depicted in the chart below:



Uttar Pradesh was one of the first states to embark upon a comprehensive programme of economic and structural reforms in the power sector. GoUP had demonstrated its willingness to take difficult decisions and implement power sector reform through a number of actions:

i. a regulatory commission was established in September 1998;

ii. in January 1999, GoUP issued a power sector policy statement with the objective of providing cost efficient and good quality supply and to make the energy sector self-sufficient;

iii. the UP Electricity Reform Bill was enacted by GoUP in July 1999; and

The U.P. State Electricity Board (UPSEB) was unbundled in pursuance of a reform and restructuring exercise under the first reforms transfer scheme dated 14th January 2000, into three separate entities:

- Uttar Pradesh Power Corporation Limited (UPPCL) assigned with the function of Transmission and Distribution of power within the State.

- Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited (UPRVUNL) assigned with the function of Thermal Generation within the State.
- Uttar Pradesh Jal Vidyut Nigam Limited (UPJVNL) assigned with the function of Hydro Generation within the State.

Through another Transfer Scheme dated 15th January, 2000, assets, liabilities and personnel of Kanpur Electricity Supply Authority (KESA) under UPSEB were transferred to Kanpur Electricity Supply Company (KESCO), a company registered under the Companies Act, 1956.

Further unbundling of UPPCL (responsible for both Transmission and Distribution functions) was again felt after the enactment of the Electricity Act 2003 and four new distribution companies (hereinafter collectively referred to as "DisComs") were created vide Uttar Pradesh Transfer of Distribution Undertaking Scheme, 2003 viz.

- Dakshinanchal Vidyut Vitaran Nigam Limited (AGRA DisCom)
- Madhyanchal Vidyut Vitaran Nigam Limited (LUCKNOW DisCom)
- Paschimanchal Vidyut Vitaran Nigam Limited (MEERUT DisCom)
- Purvanchal Vidyut Vitaran Nigam Limited (VARANASI DisCom)

Dakshinanchal Vidyut Vitaran Nigam Limited (hereinafter referred as 'AGRA DisCom' or 'DVVNL') came in to existence in 2003 as a subsidiary company of UPPCL and is responsible for power distribution in DisCom covering its jurisdiction area of districts Mathura, Aligarh, Hathras, Etah, Agra, Firozabad, Mainpuri, Farrukhabad, Etawah, Kannauj, Auraiya, Kanpur Dehat, Jalaun, Jhansi, Lalitpur, Mahoba, Hamirpur, Banda and Chitrakoot.

The GoUP has thereafter issued the Final Transfer Scheme via notification dated 03rd November, 2015. The copy of the same is hereby attached marked as Annexure-1.

दक्षिणांचल विद्युत वितरण निगम लि. आगरा

1.2. KEY INITIATIVES TAKEN

In an initiative to revive the financially distressed Distribution Companies the Union Cabinet chaired by the Hon'ble Prime Minister Shri Narendra Modi, approved a new scheme moved by the Ministry of Power - Ujwal DISCOM Assurance Yojna (UDAY). UDAY provides for the financial turnaround and revival of Power Distribution companies (DISCOMs), and thereby ensuring a sustainable permanent solution to the problem.

The scheme comprised of four initiatives - improving operational efficiencies of Discoms, reduction of cost of power, reduction in interest cost of Discoms and enforcing financial discipline on Discoms through alignment with state finances. It allowed state Government, which own the Discoms, to take over 75 percent of their debt as of September 30, 2015, and pay back lenders by selling bonds. Discoms were expected to issue bonds for the remaining 25 percent of their debt.

Consequently, on January 30, 2016, the UPPCL on behalf of U.P. Discoms has entered into a tripartite MOU with Government of India and Government of Uttar Pradesh, in order to improve the operational and financial efficiency of the U.P. Discoms and to enable financial turnaround of the Discoms.

At the time of initiation of the above scheme, the U.P. Discoms were reeling under severe financial stress. The accumulated losses have reached to the level of Rs.70,738 Crore (approx.) up to March 31, 2015. The outstanding debt level of the U.P. Discoms had reached Rs.53,211 Crore at the end of September 2015. Also, the interest cost burden was nearly Rs. 0.88 per unit of sales during FY 15, which was significantly higher than the national average of Rs 0.44 per unit only. The Annual Revenue Requirement (ARR) was insufficient to meet the Average Cost of Supply (ACOS), with a cost recovery of only 65.97 %.

Under the Uday Scheme the UP Discoms took the following measures:

a) For the 50% of the debt remaining with it as on 31 st March, 2016, DISCOM to fully/ partially issue state government guaranteed bonds or get them converted by Banks/FIs into loans or bonds with interest not more than the Bank base rate plus 0.1%. DISCOMs and the Government of UP to ensure timely payment of lender's dues towards principal/interest for the balance debt remaining with DISCOM.

b) The DISCOMs shall pay interest to the Government of Uttar Pradesh on the outstanding Government of Uttar Pradesh loan in a financial year at the rate at not exceeding the coupon rate at which GoUP issued Non-SLR Bonds.

c) As per the UDAY scheme, all DISCOMs have to reduce AT&C losses to 14.86% by FY 2019-20 as per the following trajectory:

Table 1-1: AT&C Losses as per UDAY MOU

Year	FY 2015-16	FY 2016-17	FY 2017-18	FY 2018-19	FY 2019-20
AT&C loss	32.36	28.27	23.63	19.36	14.86

However, the State will make efforts to ensure that DISCOMs reduce AT&C losses to 15% by FY 2018-19 if the target in a particular year is not met, then the DISCOMs shall strive

मुख्य अभियन्ता (वाणिज्य)
दक्षिविवनि०लि०, आगरा

to achieve the targets in the subsequent years so as to achieve the desired target of 14.86 % AT&C losses positively by FY 2019-20.

d) The DISCOMs shall increase hours of power supply in areas showing reduction in AT&C losses.

e) As per the UDAY scheme, all DISCOMs have to eliminate gap between ACS & ARR by FY 2018-19. Considering the current level of the gap. UP has proposed to eliminate it by FY 2019-20. However, the State will make efforts to ensure that DISCOMs eliminate the Gap by 2018-19 and if not achieved, positively by FY 2019-20. Detailed computation of year wise ACS-ARR gap along with financial projections have been attached as Annexure B.

f) In compliance with the Renewable Purchase Obligations (RPO) outstanding since 1.4.2012 till 31.3.2015, DISCOMs of UP shall fulfil RPO obligation 3 years after the Discoms reaches break even i.e. the Financial year 2019-20.

g) DISCOMs shall submit the detailed action plan by 31.03.2016 to achieve the projected trajectory for AT&C loss and ACS-ARR gap.

h) The DISCOMs shall achieve operational milestones related to loss reduction and enhancement of revenue, as specified in DDUGJY & IPDS.

i) The DISCOMs would also take the following measures for Loss Reduction:

(i) Undertaking name and shame campaign to control power theft from time to time;

(ii) Preparing loss reduction targets at subdivision/ division/ circle/ zonal level and making concerned officers responsible for achieving the loss reduction targets;

(iii) Implementing performance monitoring and management system MIS for tracking the meter replacement, loss reduction and day to day progress for reporting to top management;

(iv) Achieving 100% Distribution Transformer (DT) metering by 30 September 2017;

(v) Achieving 100% feeder metering by 30 September 2016;

(vi) Undertaking energy audit up-to 11kV level in rural areas by 30 September, 2019;

(vii) Undertaking Feeder Improvement Program for network strengthening and optimization, to be completed by 31March 2017, in accordance with sanction of funds under the relevant scheme..

(viii) Undertaking Physical Feeder Segregation by March 2018, in accordance with sanction of funds under the relevant scheme.

(ix) Installation of Smart Meters for all consumers other than agricultural consumers consuming above 500 units / month by 30thJune 2018 and consumers consuming above 200 units / month by 31stMarch 2020. Consumption per month has also been linked with the contracted load for the purpose of this agreement.

(x) Providing metered electricity access to unconnected households as per trajectory in the 24x7 in accordance with sanction of funds under the relevant scheme by FY 19.

मुख्य अभियन्ता (वाणिज्य)
दविविनिलि०, आगरा

(xi) Implementing ERP systems for better and effective inventory management, personnel management, accounts management etc. to reduce costs and increase efficiencies by March 2018,in accordance with sanction of funds under the relevant scheme.

j) The DISCOMs shall undertake the following measures for Demand Side Management and Energy Efficiency:

(i) Providing LED for domestic and other category consumers;

(ii) Undertaking consumer awareness programs for optimum utilization of resources and to foster long term behavioural changes;

(iii) Replacement of street lights with LEDs in phase manner in the municipal towns through Nagar Nigam/ Municipal Corporations in accordance with the policy framework;

(iv) Replacing at least 10% of existing agriculture pumps with energy efficient pumps, in accordance with the policy framework;

(v) Shall Promote PAT scheme of BEE for improving energy efficiency in Industries in accordance with the policy framework.

k) The DISCOMs shall undertake the following tariff measures:

(i) Quarterly tariff revision particularly to offset fuel price increase;

(ii) Timely filing of ARR/Tariff Petition before the UPERC so that Tariff Order may be issued for the year as early as possible.

(iii) Timely preparation of annual accounts of the DISCOMs, which shall also enable timely filing of the Tariff Petition;

l) The DISCOMs shall undertake the following measures to increase employee engagement:

(i) Initiating capacity building of employees to enhance technical, managerial and professional capabilities at induction level and in subsequent refresher trainings;

(ii) Devising Key Performance Indicators (KPIs) for each officer in-charge on areas of AT&C loss reduction and improvement in meter/billing/ collection efficiency. The performance of officer in-charge shall be linked to KPIs achieved and will attract incentive/ penalty;

m) The DISCOMs shall implement the following Customer Service Strategy:

(i) Setting up of Centralized Customer Call Centre for timely resolution of complaints related to no current and other technical complaints, harassment by official, reporting of theft and safety related complaints;

(ii) Introducing more avenues to consumers for bill payment, which could be in terms of e-payment through net banking, credit/ debit card, kiosks at banks and post offices, village panchayats, mobile collection vans, etc;

n) The DISCOMs shall procure power through the transparent process of competitive bidding as per the policy framework.

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल, आगरा

o) Every DISCOM shall identify the key personnel for implementing the scheme (UDAY)

p) DISCOMs shall devise the mechanism to motivate and encourage the staff.

q) CMD / MD of DISCOMs shall monitor the performance of DISCOMs on monthly basis

r) Monthly monitoring formats along with the quarterly targets shall be provided by the DISCOMs by 31st March 2016.

24x7 Power for ALL (Uttar Pradesh)

On 26th March, 2017, the Govt. of Uttar Pradesh entered into agreement with Govt of India committing round the clock power to all the households of Uttar Pradesh by FY 19. The 24x7 Power for All programme is a joint initiative of the Government of India (GoI) and State Governments, with the objective to provide 24x7 power to households, industry, commercial, and other consuming entity, and adequate power to the agricultural sector by FY19. This roadmap document aims to identify the requirements to meet the above objectives for Uttar Pradesh.

'24x7 Power for All' (PFA) programme will be implemented by Government of Uttar Pradesh (GoUP) with active support from the Government of India with the objective to connect the unconnected in a phased manner by March 2019 and to ensure 24x7 quality, reliable and affordable power supply to all Domestic, Commercial and Industrial consumers within a pragmatic but fixed timeframe. Agriculture consumers will also be given supply as per requirement in a cost effective manner. Power Sector development being the most crucial prime-mover for the overall development of the State, Government of Uttar Pradesh is committed to accord highest priority to power sector and accordingly, is committed to provide full support to all the associated utilities for ensuring quality power supply. Government of Uttar Pradesh, in synergy with Government of India, would try to ensure that all the necessary steps outlined in the PFA document are taken up in terms of village electrification, capacity addition, power purchase planning, strengthening the required transmission and distribution network, encouraging renewable energy, undertaking customer centric initiatives, reduction of AT&C losses, bridging the gap between ACS and ARR, and following good governance practices in the implementation of all electricity related Central and State Government Schemes.

The Government of India would synergize and supplement the efforts of the Government of Uttar Pradesh through a fast-track resolution of key issues pertaining to Generation & Transmission and ensuring enhanced allocation in various Distribution schemes. Envisioning 24x7 reliable and affordable electricity in the State of Uttar Pradesh is a joint dream and hence Government of India will support the efforts of Government of Uttar Pradesh in every possible manner to make it a reality provided Government of Uttar Pradesh puts its best foot forward for achieving this dream so that equitable development across all regions of the State of Uttar Pradesh is ensured. The Central and State Governments would meet regularly to review the progress of programme over the next two years and would strive to achieve the objectives by taking necessary steps as envisaged in this Power for All document.

The brief summary of the major targets under the 24x7 Power For All initiative are detailed below:

मुख्य अभियन्ता (वाणिज्य)
पू.वि.वि.वि.नि.लि., आगरा

a. Ensure reliable 24x7 supply to consumers by September 2018. The hours of supply for agriculture consumers will be decided by the State Government as per requirement.
b. Ensure that all unconnected households are provided access to electricity in a time bound manner in the next two years i.e. by FY 19.
c. Ensure adequate capacity addition planning and tie ups for power from various sources at affordable price to meet the projected power demand in future.
d. Strengthen the transmission and distribution networks to cater to the expected growth in demand of existing as well as future consumers.
e. Assess financial measures including optimization of investments and undertaking necessary balance sheet restructuring measures to ensure liquidity in the finances of the utility.
f. Put in place a strategy to ensure reduction of AT&C losses as per agreed loss reduction trajectory and methodology and chalk out measures required at every level of distribution.
g. Identify steps for implementation and adoption of modern technologies to monitor reliability of supply. Identify steps for monitoring and timely commissioning of various generating plants and transmission and distribution infrastructure to meet the expected growth in demand.
h. To take measures for meeting the performance standards as laid down by UPSERC.

1.3. OBJECTIVES OF DVVNL

The key objectives of this business plan are:

- Ensure reliable supply to consumers to commensurate the committed supply hours to rural and urban areas.
- The state has already increased the power supply to rural areas to 18 hours and 24 hours to urban and further plans increase supply hours to rural areas with increasing distrubtion infrastructure. However, the demand in domestic category is presently still suppressed owing to localized capacity constraints, which are targeted to be addressed through various system strengthening schemes.
- Ensure that all unconnected households are provided access to electricity in a time bound manner i.e. by FY 19.
- Ensure adequate capacity addition planning and tie ups for power from various sources at affordable price to meet the projected power demand for future.
- Strengthen the distribution network to cater the expected growth in demand of existing as well as future consumers.
- Assess the financial measures including optimizing investments and undertaking necessary balance sheet restructuring measures to ensure liquidity in the finances of the utility.
- Put in place a clear strategy to ensure reduction of AT&C losses as per the agreed loss reduction trajectory and steps required to be taken at every level of the distribution network.

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि., आगरा

- Identify steps for implementation and adoption of modern technologies to monitor reliable supply.
- Identify steps for monitoring timely commissioning of various distribution infrastructure to meet the expected growth in demand.
- To take measures for meeting the performance standards as laid down by UPERC.
- Bridging the gap between the demand and supply for the already identified / registered consumers and other consuming entities.
- Conduct sensitivity analysis for cost of service and resulting financial gap under multiple scenarios on various parameters namely, tariff hike, reduction in power procurement cost, and increase in interest and moratorium period, AT&C loss reduction, etc.

1.4. CORPORATE MISSION AND VISION

DVVNL will be professionally managed utility supplying reliable and cost efficient electricity to every citizen of the discom through highly motivated employees and state of art technologies, providing an economic return to our owners and maintaining leadership in the country.

DVVNL endeavours to be among the best of Power Distribution utilities in India in operating efficiency, system reliability standards and commercially viable operations.

DVVNL shall achieve this being a dynamic, forward looking, reliable, safe and trustworthy organization, sensitive to our customer's interests, profitable and sustainable in the long run, providing uninterrupted supply of quality power, with transparency and integrity in operation.

High productivity reflected in a fair, equitable and cost based tariff across consumer categories, accurate and timely billing on a rational, comprehensible billing basis reflecting actual consumption, and convenient system for payment of dues. Simple and well-advertised procedures, guaranteed connection of requested load within reasonable time, prompt breakdown attendance, and Efficient Complaint handling.

Effective communication of policies and procedures, a reliable supply to essential public services, enforcing adequate safety norms and environmental and social norms, minimizing inconvenience dare to disruptions etc.

Developing with a core function of providing quality, uninterrupted power, commercial focus considering all techno-economic issues of investments, and a high level of consumer service with new connections on demand and low complaint resolution times.

Adopt best practices of Project and Operations & Maintenance Management leading to system efficiency, reliability and commercial viability. Create a work environment which motivates & enhances employee performance, value systems and reward contribution. Develop and train employees towards upgrading their skills at work, enrich work content to make it more substantive and responsive to company goals.

Imbibe transparency and accountability in all operational areas, be it procurement, construction, operations and maintenance. Expand horizons of activities in to contracting and others by leveraging

मुख्य अभियन्ता (वाणिज्य)
दक्षिविवि०नि०लि०, आगरा

the Company's available technical and project expertise. Build, in essence DVVNL to a Company geared to high standards of management capabilities and professional performance.

1.5. KEY OBJECTIVES OF THE BUSINESS PLAN

The key objectives of this business plan have been listed below:

- Providing a tool for strategic planning - The primary objective of the Business Plan is to analyse and anticipate the future requirements in advance and strategically plan for the capital investments, related means of financing and various associated costs and document them which would serve as an effective tool for monitoring and execution of future works. It is important to project the growth in distribution network infrastructure commensurate with the energy demand required for fuelling the economic growth targets of the State.

- Meeting the regulatory compliance of submission of a business plan as mandated by the Uttar Pradesh Electricity Regulatory Commission (Multi Year Distribution Tariff) Regulations, 2014 (hereinafter referred to as 'MYT Distribution Regulations').

- Aid in decision making leading to better Operational Efficiency - The Business Plan is prepared so as to be useful for the Managing Board, associated stakeholders, the Hon'ble Commission and various government bodies. The future projections in the Plan would help the transmission utility in decision making and taking proactive actions, and thus improving the overall operational efficiency of the Distribution network infrastructure.

The business plan of the discom has been prepared considered the impact of changes in the key business drivers, current regulatory practice and the regulatory norms envisaged in the mid-term, policy decisions of GoUP, etc. The main thrust of the business plan is to improve the operating efficiency and tide over the financial crisis by achieving financial turnaround.

Following parameters have been considered in the preparation of the business plan of the discom:

- Energy Sales Forecast
- Transmission and Distribution Loss Reduction Trajectory
- Energy Availability and Power Procurement Plan
- Energy Balance
- Capital Investment Plan and its Financing
- Annual Revenue Requirement for each financial year of the Control Period

The Discom has prepared the Business/Operational Plan taking into consideration all the factors and commitments made under the UDAY and PFA scheme. It is submitted that the Business plan being a dynamic document may need to be updated at periodic intervals taking into account the changes in the internal and external environment and these changes would be intimated to the Hon'ble Commission from time to time. The operational plans include the estimates of each capital expenditure scheme of DVVNL from FY 2017-18 to FY 2019-20.

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि., आगरा

The most important aspect of any business plan is its implementation and thereby monitoring of key activities is a pre-requisite. In light of the existing situation there is a dire need of assigning certain key performance indicators at the micro level of the distribution companies.

Key Performance Indicators (KPIs) can be defined as the measures that focus on the aspects or areas of organisation's performance that are critical or vital for the ongoing and future success. In order to ensure that the designated objectives are attained, KPIs should be specific, measurable, agreed to, realistic, timely and aligned with the plan targets.

Key Performance indicators like distribution loss trajectories, collection efficiency trajectory, average tariff hikes, etc have to be monitored on a concurrent basis and are crucial for the successful implementation of the Plan.

2. BUSINESS OVERVIEW: OPERATIONAL

A snapshot of the existing distribution system of the utilities serving in Uttar Pradesh is given below:

Table 2-1: Existing Distribution System

Particulars	MVVNL	DVVNL	PuVVNL	PVVNL	KeSCO
Number of 33/11 kV substations / transformers	735	773	698	951	82
Capacity of 33/11 kV substations (MVA)	8312 MVA	7451 MVA	6044 MVA	12452 MVA	1290 MVA
Length of 33 kV lines (ckt kms)	10972 km	14449 km	10640 km	9802 km	428 km
Length of 11 kV lines (ckt kms)	107527 km	109929 km	65011 km	81084 km	1040 km
Length of LT Lines (km)	351210 km	215099 km	379277 km	231134 km	1845 km
Number of 11/0.4 kV Distribution Transformers	266934	216811	230124	210593	4448
Capacity of 11/0.4 kV Distribution Transformers (MVA)	11127 MVA	9388 MVA	7940 MVA	11889 MVA	1008 MVA

2.1. EXISITNG GENERATION AVAILABLITY

The distribution utilities of Uttar Pradesh presently procure power centrally at UPPCL level which buys power for the five State owned discoms i.e. MVVNL, DVVNL, PVVNL, PuVVNL and KESCO. As per the Power Supply Position report of CEA, lately the state of UP has been able to meet 17,183 MW peak demand in Feb, 2017. In terms of Energy the total power purchase quantum for the UP State has grown from 65,375 MU's in FY 2010-11 to 1,07,569 MU's in FY 2016-17, with a CAGR of 8.65%.

The total installed generation capacity for Uttar Pradesh as on date (including its firm share from allocated capacity in State, private, joint and CGS) is 20,666.89 MW is detailed in table below:

Table 2.1-1: Sector wise details of Installed Generation Capacity

Particulars	Installed Capacity (MW)
State Sector	
State Thermal	5933.00
State Hydro	454.90
Central Sector	
CGS Thermal	4088.00
CGS Hydro	1790.67
CGS Nuclear	360.87
IPPs	
Thermal	6722.55
Hydro	842.00
RE	474.90
Total Capacity (MW)	**20666.89**

As discernible from the table above, the Coal based capacity constitutes about 81% of the total followed by hydro 15%, renewable 2% and balance about 2% from nuclear.

2.2. CAPACITY ADDITION PLAN

To cater the growth in Energy demand on account of increase in supply hours in the rural and urban areas, the UPPCL on behalf of UP Discoms has planned generating capacity addition during the MYT control period. A number of generating stations (hydro, coal based, renewable etc.) are planned to be commissioned during the MYT control period. There is about 5,041 MW generating capacity planned to be available for UP power system from different sources including state sector upto the period FY 2019-20. The additional capacity available from various sources (along with the expected year of availability) is summarized in the table below:

Table 2.2-1: Generation Capacity Addition Plan

Particulars	MW Capacity Addition			
	2017-18	2018-19	2019-20	Total
State RE				
Solar / Biomass	250	1100	1250	2600
Central Sector				
CGS Thermal				272
Tanda Stage-II			155	
Uchchahar-IV		117		
CGS Hydro				541

मुख्य अभियन्ता (वाणिज्य)
दक्षिविविनिलि०, आगरा

Particulars	MW Capacity Addition			
	2017-18	2018-19	2019-20	Total
Tapovan Vishnu Gad			101	
Kishanganga HEP	64			
Vishnugarh Pipalkoti			166	
Parbati II		155		
Kameng			55	
CGS Nuclear				
RAPP Unit 7 & 8			162	162
IPPs				
Thermal				350
RKM Powergen	350			
Hydro				200
Teesta	200			
Joint Sector				916
NTPC Meja		458	458	
Total Capacity (MW)				**5041**

The commissioning of the generating stations has been considered based on the construction progress for the on-going projects and as per the project monitoring reports published by the Central Electricity Authority (CEA). The Discoms are expected to cater the required demand from FY 2020 onwards. The various parameters impacting the net generation and power purchase cost from these plants like Plant Load Factor, Design Energy, Station Heat Rate, Auxiliary Energy Consumption, etc have been considered on the basis of prevailing regulatory norms. The increase in energy charges (fuel cost) and capacity charges (fixed costs) and other expenses during the projection period have been factored in through an increase of 4% to 5% in per unit power purchase cost depending upon the nature and source of generation and power purchase.

With considerable capacity addition planned from FY 18 onwards along with efficiency improvement in terms of reduced distribution loss targets the situation in the State is likely to improve. Analysing the situation of power availability from sources within and outside the State, there is enough power available to cater energy requirement till FY 20.

Further, the list of generating stations which are at the planning stage/under construction whose evacuation is proposed through State Transmission (UPPTCL) system is provided in the table below:

Table 2.2-2: List of Generating Stations whose evacuation is proposed through UPPTCL system

S. No.	Name of the Project	Name of the Developer	Capacity In MW
1	Obra C TPS	UPRVUNL	1320
2	Ghatampur TPS	UPRVUNL & NLC	1980
3	Harduagnaj Ext. TPS	UPRVUNL	660

मुख्य अभियन्ता (वाणिज्य)
दक्षिविनिलि, आगरा

4	Panki Extension	UPRVUNL	660
5	Karchana TPS	UPRVUNL	1320
6	Jawaharpur TPS	UPRVUNL	1320

2.3. SCHEMES UNDER IMPLEMENTATION

2.3.1. INTEGRATED POWER DEVELOPMENT SCHEME (IPDS)

The UP Discoms are presently receiving capital expenditure funds under Central Government scheme "Integrated Power Development Scheme" (IPDS) covering urban areas for:

a) Strengthening of sub-transmission and distribution networks in the urban areas.
b) Metering of distribution transformer/feeders/consumers in the urban areas.
c) IT enablement of distribution sector and strengthening of distribution network for completion of the targets laid down under R-APDRP for 12th and 13th Plans by carrying forward the approved outlay for R-APDRP to IPDS.

The R-APDRP scheme, as approved by CCEA for continuation in 12thand 13th Plans, has been subsumed in this scheme as a separate component relating to IT enablement of distribution sector and strengthening of distribution network.

This outlay will be carried forward to the new scheme of IPDS in addition to the outlay indicated above. PFC is the nodal agency for the implementation of IPDS in the country.

The new IPDS proposal aims to cover 637 towns including towns covered under R-APDRP. The distribution utilities of the State have proposed works amounting to Rs. 4889.37 crores to be undertaken under the new IPDS scheme

For implementation of these works, 60% of project cost is available as grant from GOI under IPDS and the state has to arrange the balance amount- 30 % as loan and 10% as equity. On meeting certain conditions laid down in IPDS such as timely completion, AT&C loss reduction etc. the grant component may go up to 75% of project cost.

Under the Integrated Power Development Scheme (IPDS), GoUP has submitted proposals for works in urban areas such as i) Strengthening of sub-transmission and distribution networks and for ii) Metering of DT / feeders / consumer.

Table 2.3.1-1: New IPDS scheme

Item	Unit	Total for State	
		Quantity	Cost (Rs Cr)
33/11 kV SS : New	Nos.	240	498.18
33/11 kV SS : Additional Transformer	Nos.	87	81.08
33/11 kV SS : Transformer capacity enhancement	Nos.	172	180.05
Renovation and Modernisation of 33/11 kV S/S	Nos.	466	88.66

There are 168 towns covered in RAPDRP Part-A and 167 towns under R-APDRP Part-B for system strengthening and loss reduction. Out of 167 towns, 155 towns are Non-SCADA and 12 are to be SCADA compatible towns. Noida is not covered under R-APDRP Part-B works. Projects with estimated capital expenditure totaling Rs. 4721 Crore (including PMA cost) for 82 circles have been sanctioned for Uttar Pradesh by GOI. An amount of Rs. 680.78 crore has already been released to utilities. Work has been awarded partially in 81 circles out of 82 for an amount of Rs. 4034.84 crore. Discom wise status of IPDS, as in March, 2017 is summarized in the following table:

Table 2.3.1-2: Project expenditure and sanctioned cost for Non-SCADA towns

Utility	No. of circles/ zones	No. of towns	Approved cost (Rs. Crore)	Amount Disbursed (Rs. Crore)

2.3.2. DEENDAYAL UPADHYAYA GRAM JYOTI YOJANA (DDUGJY)

The UP Disocms are doing certain capital expenditure works under the "Deendayal Upadhyaya Gram Jyoti Yojna" (DDUGJY) scheme launched by Government of India on 3rd December, 2014. This scheme included:

(a) Separation of agriculture and non-agriculture feeders facilitating different hours of supply to agricultural & non-agriculture consumers in the rural areas.
(b) Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers /feeders/consumers.
(c) Rural electrification for completion of the targets laid down under RGGVY for 12thand 13thPlans by carrying forward the approved outlay for RGGVY to DDUGJY.

The scheme of RGGVY as approved by CCEA for continuation in 12th and 13th Plans has been subsumed in this scheme as a separate rural electrification component. The State has proposed work amounting to Rs. 18,774 crores to be undertaken under the new scheme. Under this scheme projects amounting to Rs. 6946.40 crore (including PMA cost) for the State have been sanctioned by GOI which is summarized in table below:

Table 2.3.2-1: New Scheme (DDUGJY)

Discom	Nos. of Districts	Electrification of UE Villages	Feeder Separation	Connecting/ Unconnected Hhs	Metering	System Strengthening	Sansad Adarsh Gram Yojna	PMA	Grand Total
DVVNL	21	0.00	966.60	397.02	59.69	522.83	23.92	9.84	1979.90
PVVNL	14	2.70	1218.92	198.20	59.67	652.74	17.08	10.75	2160.06
MVVNL	19	6.78	427.90	287.74	59.75	442.25	6.82	6.15	1237.39
PuVVNL	21	0.00	644.27	260.19	114.94	529.94	11.93	7.78	1569.05
Total	**75**	**9.48**	**3257.69**	**1143.15**	**294.05**	**2147.76**	**59.75**	**34.52**	**6946.40**

For implementation of these works, 60% of project cost is available as grant from GOI under DDUGJY and the State has to arrange the balance amount- 30% as loan and 10% as equity. On meeting certain conditions laid down in DDUGJY, such as timely completion of schemes, AT&C loss reduction etc., the grant component may go up to 75% of project cost.

Apart from the centrally promoted schemes the State has also taken certain initiatives to improve the electrification status in the State.

2.3.3. DR. RAM MANOHAR LOHIYA SAMAGRA GRAM VIKAS YOJANA

Dr Ram Manohar LohiaSamagra Gram Vikas Yojna was implemented in FY 12 to ensure basic amenities in the most backward revenue villages of Uttar Pradesh. The main objective of this scheme is to bring these most backward revenue villages, which are lagging behind in infrastructure development such as link roads, rural electrification, availability of potable water, sanitary latrines, etc., into mainstream of development by providing these infrastructure facilities.

Under Dr. Ram Manohar Lohia Samagra Gram Vikas Scheme, 10,000 Revenue Villages are targeted for development in five years. The following table depicts the villages selected under the said scheme:

Table 2.3.3-1: No. Of villages selected under the scheme

Discom	Selected Village Under Scheme	Target
		No. of Villages
PVVNL	857	857
DVVNL	1316	1257
MVVNL	1678	1637
.PuVVNL	1951	1951
Total	**5802**	**5702**

2.3.4. MAJOR DEVELOPMENTS AND ACTIVITIES UNDER DEMAND SIDE MANAGEMENT MEASURES:

The discom has ordered various measures on energy efficiency, such measures include the following:

a) Demo projects of LED street lights shall be undertaken in the area of Lucknow Development Authority, Ghaziabad Development Authority and Noida Development Authority with the help of EESL.
b) LED Pilot projects shall be undertake at KrishiMandi at Kanpur and Gorakhpur area.
c) A pilot project shall be undertaken in Varanasi to replace 3 bulbs / tube light with LED bulbs.
d) The works under the Energy Conservation Building Code shall be aggressively undertaken.
e) The Uttar Pradesh secretariat shall be developed as energy conservation model.
f) In phase – 1 all the Government buildings and private building with load more than 60 kVA shall be installed with automatic power factor correctors.
g) In phase – 2 buildings having load 10 kVA to 60 kVA shall be required to install automatic power factor correctors.

The Hon'ble Commission has recently passed an Order to implement DELP (DSM based Efficient Lighting Program) of Energy Efficiency Services Limited in 22 districts of the State. The first phase of implementation shall be undertaken by EESL for six districts of Purvanchal Vidyut Vitran Nigam Limited. The discom wise details of the district covered under first phase is as follows:

S No.	Distribution Utility	Districts to be covered
1.	PuVVNL	a. Varanasi b. Allahabad c. Gorakhpur

मुख्य अभियन्ता (वाणिज्य)
दक्षिविनिलि. आगरा

S No.	Distribution Utility	Districts to be covered
		d. Mirzapur e. Azamgarh f. Basti
2.	MVVNL	g. Lucknow h. Faizabad i. Bareilly j. Raebareli
3.	KESCO	k. Kanpur
4.	DVVNL	l. Agra m. Jhansi n. Aligarh o. Orai p. Etawah q. Kannauj
5.	PVVNL	r. Ghazibad s. Moradabad t. Meerut u. Noida

The energy audit of 20 State Government buildings, have been done and annual energy saving potential has been estimated to be Rs. 5.27 crores with required investment of Rs. 9.61 crores. By partial implementation of recommendations of energy audit reports in only nine buildings around 0.22 MU per month is being saved with monthly cost savings of around Rs. 12.77 Lakh.

Regular awareness programs are being conducted in the State for "Energy efficiency"

All State Government power houses & some heavy industries in the State have been identified as "Designated Consumers" and these are brought under the ambit of the "Perform, Achieve and Trade (PAT) scheme of BEE to promote energy efficiency. The draft Energy Conservation Building Code" is sent to the department of PWD for notification. The capacity building of State for Energy Conservation Building Code (ECBC) is also being done.

2.4. OPERATIONAL PERFORMANCE

Operational parameters and performance provide a basis for determining the financial viability and strategies for the company. Some of the operational performance parameters have been analysed in this section.

The Energy input for the discom has increased from 16,052 MU's in FY 2011-12 to 22732 MU's in FY 2016-17, vis-a-vis the sales have increased from 11335 MU's in FY 2011-12 to 16,267 MU's in FY

मुख्य अभियन्ता (वाणिज्य)
दक्षिविवि०नि०लि०, आगरा

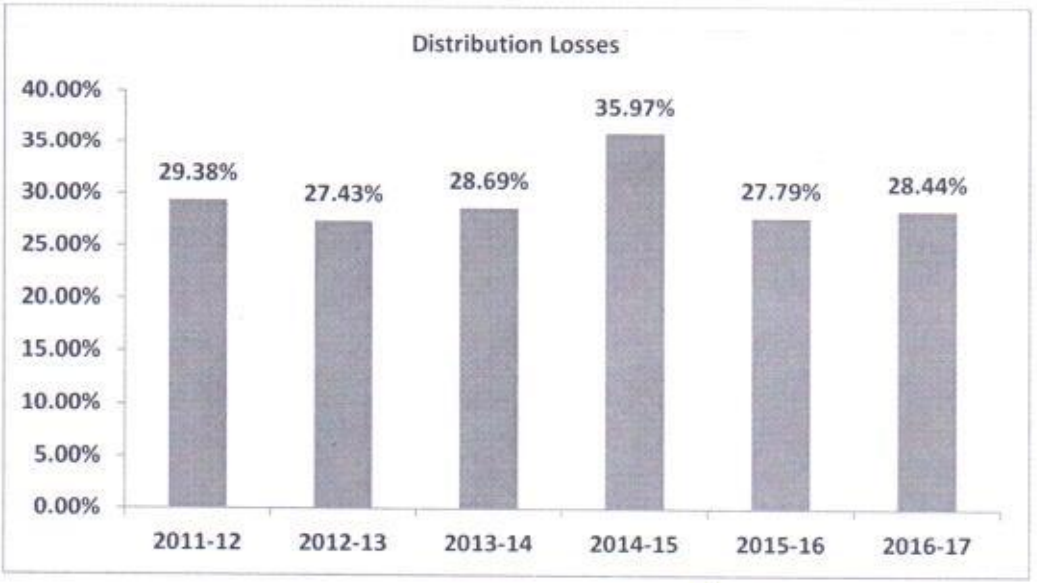
2016-17, thus resulting in distribution losses in the supply area of Dakshinanchal Vidyut Vitrun Nigam Limited, from 29.38% in FY 2011-12 to 28.44% in FY 2016-17.

2.4.1. ENERGY INPUT AND ENERGY SALES

The details of energy input at the Discom periphery and the sales made by the Discoms, along with the Distribution Losses achieved by the Discom, over the past 5 years is shown in the chart below:

Chart 2.4.1-1: Energy Input and Energy Sales (MU's)

Chart 2.4.1-2: Distribution Losses (%)



मुख्य अभियन्ता (वाणिज्य)
द.वि.वि.नि.लि., आगरा

3. REGULATORY FRAMEWORK

3.1. BACKGROUND

As per the Constitution, the power sector in India was the combined responsibility of Central and State Government. Over the years, reforms in Indian power sector have been driven by the Union Government in an endeavour to achieve sustainable growth & improvement in operational efficiencies. One of the hallmarks of this reform Agenda is the Electricity Act, 2003 (hereinafter referred as EA, 2003 or simply the "Act" unless specified otherwise).

The Electricity Act 2003 attempts to induce competition in electricity sector for creating an environment conducive to supply of good quality of electricity to all categories of consumers at affordable/reasonable prices. The access to electricity markets for captive generators, open access participants and parallel licensees has led to evolution of multi buyer market mechanism. Adequate investment in Intra-state and Inter-state transmission infrastructure would also be required for supporting power generation. This vibrant power market would facilitate competitive merchant power plants to be set up pursuant to the promotional policies like mega power plants etc, and incentives offered by the Government such as availability of state specific resources like land, water, rebate in local taxes, etc.

3.2. ENABLING PROVISIONS IN ELECTRICITY ACT, 2003

The Government of India has notified the Electricity Act, 2003 with effect from 10th June 2003 which requires the State Governments to initiate major changes in the Industry Structure and Operations of the state power sector. The broad objectives of the Electricity Act, 2003 as incorporated in its preamble is to consolidate the laws relating to generation, transmission, distribution, trading and use of electricity and for taking measures conducive to development of electricity industry through way of reforms and restructuring, promoting competition therein, protecting interest of consumers and supply of electricity to all areas, rationalisation of electricity tariff, ensuring transparent policies regarding subsidies, promotion of efficient and environmentally benign policies, constitution of Central Electricity Authority, Regulatory Commissions and establishment of Appellate Tribunal and for matters connected therewith or incidental thereto.

It has introduced a number of innovative concepts like de-licensing of generation, power trading, Open Access, Appellate Tribunal, etc., and special provisions for the rural areas. The Act has made it mandatory for all the States to restructure their SEBs.

The major provisions of the Electricity Act 2003 related to Distribution are:

- As per Section 3 of the Electricity Act 2003, the CEA has been entrusted with the responsibility of preparing the National Electricity Plan in accordance with the National Electricity Policy and notify such plans once in five years.
- Preparation, publication and notification of National Electricity Plan by the Central Electricity Authority. (Section 4)

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि०, आगरा

- Duty to supply on request: This provision very clearly indicates that it shall be the duty of the licensee to supply electricity to the premises of the applicant within 30 days from the date of application. (Section 43)
- Power to recover charges for supply of electricity in accordance with the methods and principles laid down by the State Commission.(Section 45)
- Electricity Supply Code- This section empowers the State Commission to specify the ES code for effective operation of supply, billing , disconnection, restoration of supply etc. (Section 50)
- Provisions relating to safety and electricity supply (Section 53)
- Provisions relating to Disconnection of supply (Section 56)
- Use of meters – this provision makes it very clear that no licensee shall supply electricity except through installation of a correct meter (Section 55)
- Specific provision for disconnection of supply in default of payment. However, the sections clearly says such disconnection can be made only after giving a 15 days clear notice to the consumer. Subsection (2) under this section also specifies a limitation of two years for recovery of dues (Section 56)
- Consumer protection - Provisions under this section says that appropriate standards of performance shall be determined by the Commission. Failure to adhere to the standards, the licensee becomes liable for penalty or prosecution besides providing compensation to the consumer. (Section 57)
- Provides for establishment of consumer grievance redressal forum by the licensee as per the guidelines issued by the Commission. (Section 42 (5))
- Provides for establishment of Ombudsman for redressal of grievances not properly addressed by consumer grievance redressal forums (Section 42(6))
- Provides for assessing unauthorized use of electricity by the assessing officer. Under the explanation, Assessing officers are defined as " An Officer of State Government , Board or licensee as the case may be, designated as such by the State Government" (Section 126)
- Provides for constitution of appellate authority to hear appeals on the assessment by the assessing officers (Section 127)

The Act has created a conducive environment for investments in all segments of the industry, both for public sector and private sector, by removing barrier to entry in different segments.

Functions as specified in the Act are:

- Distribution;
- Planning & co-ordination of distribution system;
- Development of efficient and economical distribution lines and sub-station for efficient transmitting of power to the consumers;
- Providing non-discriminatory open access to the system

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल वि.वि.नि.लि. आगरा

3.3. NATIONAL ELECTRICITY POLICY

The National Electricity Policy was notified by GoI as per provisions of the Act on February 12, 2005. This Policy aims at accelerated development of the power sector, providing supply of electricity to all

areas and protecting interests of consumers and other stakeholders keeping in view availability of energy resources, technology available to exploit these resources, economics of generation using different resources and energy security issues.

The main objectives of the Policy were:

- Access to Electricity Available for all households.
- Supply of Reliable and Quality Power of specified standards in an efficient manner and at reasonable rates.
- Financial Turnaround and Commercial Viability of Electricity Sector.
- Protection of consumer interests.

The National Electricity Policy lays down the approach for developing Rural Electrification distribution backbone and village electrification to achieve the target of completing household electrification. The policy also envisages financial support in terms of capital subsidy to States for rural electrification and special preference weaker sections for rural electrification.

The Policy notes that in view of the required magnitude of the expansion of the sector, a sizeable part of the investment requirement will need to be brought in from the private sector. In keeping with this, it specifies that special mechanisms would be created to encourage private investment in the distribution sector so that sufficient investments are made for achieving the objective of demand to be fully met by 2012.

The National Electricity Policy notified on 12th February, 2005 inter-alia states that –

"5.4.1 Distribution is the most critical segment of the electricity business chain. The real challenge of reforms in the power sector lies in efficient management of the distribution sector.

5.4.2 The Act provides for a robust regulatory framework for distribution licensees to safeguard consumer interests.

5.4.3 For achieving efficiency gains proper restructuring of distribution utilities is essential. Adequate transition financing support would also be necessary for these utilities.

5.4.4 Conducive business environment in terms of adequate returns and suitable transitional model with predetermined improvements in efficiency parameters in distribution business would be necessary for facilitating funding and attracting investments in distribution. Multi-Year Tariff (MYT) framework is an important structural incentive to minimize risks for utilities and consumers, promote efficiency and rapid reduction of system losses. It would serve public interest through economic efficiency and improved service quality.

5.4.6 A time-bound programme should be drawn up by the State Electricity Regulatory Commissions (SERC) for segregation of technical and commercial losses through energy audits.

5.4.10 Modern information technology systems may be implemented by the utilities on a priority basis, after considering cost and benefits, to facilitate creation of network information and customer data base which will help in management of load, improvement in quality, detection of theft and tampering, customer information and prompt and correct billing and collection .

5.4.12 SCADA and data management systems are useful for efficient working of Distribution Systems. A time bound programme for implementation of SCADA and data management system

मुख्य अभियन्ता (वाणिज्य)
दक्षिविनिलि0, आगरा

should be obtained from Distribution Licensees and approved by the SERCs keeping in view the techno economic considerations. Efforts should be made to install substation automation equipment in a phased manner."

The policy also emphasises on higher efficiency levels of generating plants through renovation and modernization, transmission capacity to have redundancy level and margins as per international standards, adequate transitional financial support for reforming power utilities, encouragement for private sector participation in distribution, putting in place independent third party meter testing arrangement, adoption of IT system for ensuring correct billing, speedy implementation of stringent measures against theft of electricity, emphasis on augmentation of R&D base, energy conservation measures, appropriate tariff structure for managing the peak load, development of training infrastructure in regulation, trading and power market, providing boost to renewable and non-conventional energy sources, and necessary regulations and early appointment of Ombudsman for redressal of consumers grievances.

3.4. NATIONAL TARIFF POLICY

Some of Distribution related provisions of National Tariff Policy which have implication with regard to the National Electricity Plan are:

- Supply of reliable and quality power of specified standards in an efficient manner and at reasonable rates is one of the main objectives of the National Electricity Policy.
- The State Commission should determine and notify the standards of performance of licensees with respect to quality, continuity and reliability of service for all consumers. It is desirable that the Forum of Regulators determines the basic framework on service standards.
- A suitable transition framework could be provided for the licensees to reach the desired levels of service as quickly as possible. Penalties may be imposed on licensees in accordance with section 57 of the Act for failure to meet the standards.
- Making the distribution segment of the industry efficient and solvent is the key to success of power sector reforms and provision of services of specified standards. Therefore, the Regulatory Commissions need to strike the right balance between the requirements of the commercial viability of distribution licensees and consumer interests.
- Loss making utilities need to be transformed into profitable ventures which can raise necessary resources from the capital markets to provide services of international standards to enable India to achieve its full growth potential.
- Efficiency in operations should be encouraged. Gains of efficient operations with reference to normative parameters should be appropriately shared between consumers and licensees.
- Appropriate Commission should mandate Distribution Licensee to undertake load forecasting every year and to publish and submit to the Commission their short, medium and long-term power procurement plans to meet the load.
- The State Regulatory Commission will devise a specific trajectory so that 24 hours supply of adequate and uninterrupted power can be ensured to all categories of consumers by 2021-22 or earlier depending upon the prevailing situation in the State.

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

- Micro-grids supplying renewable energy are being set up in such areas where the grid has not reached or where adequate power is not available in the grid. Investment involved in setting up of such micro grids is substantial.
- Implementation of Multi-Year Tariff (MYT) framework
- All power purchase costs need to be considered legitimate unless it is established that the merit order principle has been violated or power has been purchased at unreasonable rates.
- The reduction of Aggregate Technical & Commercial (AT&C) losses needs to be brought about but not by denying revenues required for power purchase for 24 hours supply and necessary and reasonable O&M and investment for system up gradation.
- Consumers, particularly those who are ready to pay a tariff which reflects efficient costs have the right to get uninterrupted 24 hours supply of quality power.

3.5. SERC REGULATIONS

Regulations were enacted by the Regulatory Commission in compliance with the provisions of the EA 2003 and as guided by the National Tariff Policy and National Electricity Policy. Some of the key regulations which were enacted by the Uttar Pradesh Electricity Regulatory Commission in regard to the Distribution Utilities are outlined below:

Table 3.1: Regulations

S.No.	Name of the Regulation
1.	Uttar Pradesh Electricity Supply Code – 2005
2.	Uttar Pradesh Electricity Regulatory Commission (Multi Year Distribution Tariff) Regulations, 2014
3.	U.P. Electricity Regulatory Commission (Terms and Conditions for Determination of Distribution Tariff) Regulation-2006
4.	Uttar Pradesh Electricity Regulatory Commission (Terms and Conditions for Open Access) Regulations, 2004
5.	Uttar Pradesh Electricity Regulatory Commission (Fees and Fines) Regulations, 2010
6.	Uttar Pradesh Electricity Regulatory Commission (Procedure, Terms & Conditions for payment of Fee and Charges to State Load Dispatch Centre and other related provisions) Regulations, 2004

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण लि०, आगरा

4. OPERATIONAL PLAN

DVVNL has prepared the Business/Operational Plan taking into consideration all the factors which would affect the operations of the company. It is submitted that the Business plan being a dynamic document may need to be updated at periodic intervals taking into account the changes in the internal and external environment and these changes would be intimated to the State Commission from time to time. The operational plans include the estimates of each capital expenditure scheme of DVVNL from FY 2017-18 to FY 2019-20.

The thrust of the capital investment plan is to achieve aggressive loss reduction through technology intervention, process and efficiency improvement while maintaining reliable distribution system and quality of supply to consumer.

Possible benefits can also include reducing dependency on expensive imports of fuel, reducing energy cost, and reducing harmful emissions to the environment. Finally, DSM has a major role to play in deferring high investments in generation, transmission and distribution networks. Thus DSM applied to electricity systems provides significant economic, reliability and environmental benefits. Opportunities for reducing energy demand are numerous in all sectors and many are low-cost, or even no cost, items that most enterprises or individuals could adopt in the short term.

Large investments have been planned in order to reduce T&D losses and to maintain reliable supply. In past the desired results could not be obtained due to severe fund constraints. To achieve the desired objective an aggressive investment plan has been envisaged. While in most of the schemes the objective is to strengthen/up-grade the distribution system, some scheme will also help in reducing AT&C losses, the full benefit of the capital expenditure incurred in respect to the reduction of AT&C losses will however accrue over a period of next few years. The proposed expenditure plan has been aimed with following objective:

- Strengthening and refurbishment of system to improve the reliability of supply.
- Undertaking system improvement to meet the demand growth.
- For reducing the distribution losses.
- Carry out automation and other improvement work to enhance customer service.
- Undertake investment to cater social need such as electrification in left over area of villages.
- Carry out customer deposit work.

The various schemes under which the capital expenditure programs are envisaged are detailed below:

a) Rural Feeder Separation: The Discoms have undertaken rural feeder separation programme to ensure seamless 14 hour supply to the agriculture sector.

b) R-APDRP –

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

Ministry of Power, Govt. of India, has launched the Restructured Accelerated Power Development and Reforms Programme (R-APDRP) in the XI Five year Plan. Power Finance Corporation Limited (PFC) has been designated by GoI as the Nodal Agency for the programme. The programme spans from data acquisition at distribution level till monitoring of results of steps taken to provide an IT backbone and strengthening of the Electricity Distribution system across the Country under the programme.

Part-A of the scheme includes the project for establishment of base line data and IT application for energy accounting /auditing and IT based consumer service centre. Part-B shall include regular distribution strengthening projects. The activities covered under each part are as follows:

Part -A of the scheme essentially covers the application of information technology in distribution utilities across the country. The scheme shall involve implementation of IT modules for data acquisition, new connections/disconnection, energy accounting & audit, Overloading and unbalancing of Distribution Transformer, network analysis management, Maintenance management, Asset management, MIS, metering, billing, collection etc. The programme also encompasses implementation of SCADA/DMS, GIS based Consumer Indexing & Asset mapping etc. This entire exercise is being aimed to establish Base line Data collection system for the distribution utilities through which they would be able to capture AT&C losses in a precise manner without manual intervention and also to plan & implement
corrective measures in Part B

Part-B of the scheme covers system strengthening, improvement and augmentation of distribution system. This involves:-

- Identification of high loss areas
- Preparation of investment plans for identified areas
- Implementation of plan
- Monitoring of Losses

c) Laying of Aerial Bunch Conductors – Replacement of the overhead bare conductors by aerial bunch conductors, which are less theft prone. Unauthorized consumption of electricity is the most important area of concern for the petitioner. The major component of losses in distribution is commercial losses, which is primarily due to theft. In order to reduce the same the existing over head lines are envisaged to be replaced by Arial Bunched Conductors (ABC) which is less prone to theft.

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

d) Construction of new and enhancement of capacity of existing 33kV/11kV substations to meet the increased load demand and ensuring reliable supply, prevention of frequent failures due to overloading and reduction of technical losses.

e) Addition of Distribution Transformers vi. Replacement of worn-out poles and installation of new poles. vii. Installation of new meters including double metering of big ticket consumers viii. Electrification of balance villages under the RGGVY scheme ix. Energisation of Private Tubewells with power efficient pumps x. Electrification works under Dr. Ambedkar Gram Sabha Vikas Yojana under which the majras of the Gram Sabha are electrified. xi. Distribution Automation: It is envisaged that 33kVand 11kV feeders shall be automated through distribution SCADA system in phases to monitor automatically the operation of feeders for over loading of feeders, tripping etc.

f) Together with the feeder separation program, installation of HVDS systems and upgrading of distribution system would result in energy efficiency improvement, commercial loss reduction and associated revenue increase for the distribution companies.

g) Rural Electrification Program- RGGVY contemplates electrification of villages and strengthening the existing network in the rural areas to achieve universal access to electricity for all households. Under this scheme following work is performed:

- Electrification of un-electrified hamlets
- Strengthening of Distribution system under RGGVY for providing electricity to all BPL household
- Electrification of villages electrified as per CEA
- Conversion of villages/hamlets electrified from LT mains to HVDS
- Providing electricity to all rural households including free connection to BPL households
- Strengthening of Rural electricity Distribution backbone
- Electrification of remote villages (Stand alone)

Under RGGVY, program central government provides a grant of 90% of the project cost for each scheme of village electrification and the balance 10% of the fund is provided by the State Government. However, the GoUP provides entire fund required for schemes under the RGGVY programme in the form of equity to the DisCom.

h) Metering of Consumer: Large number of meters is required for providing new connections as well as for replacement of defective meters for effective energy accounting. At present large section of the consumers are not correctly metered due to defective metering. This needs immediate replacement. Presently the Petitioner is releasing all the new connections with meters. In addition to investment on replacement and installation of meters, investment in

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल वि.वि.नि.लि., आगरा

respect of installation of 3-phase meters and investment in respect of double metering of high value consumers is being undertaken in the current year and is also projected in the ensuing year. The Petitioner hereby that it has proposed a comprehensive metering plan for its entire consumer base and targets the same to be executed by FY 2019.

i) A large part of the distribution network is very old and needs major overhauling or replacement. Petitioner has identified some major assets that are in dire need of replacement. Major items covered under the requirement of replacement are poles, overhead conductors, wires, and switchgears. This is important for reducing losses and in reduction of occurrence of accidents

j) Apart from replacement of the old and dilapidated assets there are ongoing requirement of network and infrastructure augmentation to cater to the load growth occurring due to regular increase in load in existing set-up as well as due to large-scale electrification of rural areas. Also, there is a significant requirement of improving the systems and processes of the distribution business of the petitioner to achieve better efficiency of operations, e.g. billing accuracy and procedure, material and financial management etc. Therefore the petitioner has also planned to invest significantly in IT systems for achieving such objectives.

k) With implementation of various Demand Side Management (DSM) and Energy Efficiency measures in various sectors such as agriculture, municipalities, buildings, domestic, industries a considerable quantum of electricity can be saved. The DSM has been traditionally seen as a means of reducing peak electricity demand. In fact, by reducing the overall load on an electricity network, DSM has various beneficial effects, including mitigating electrical system emergencies, reducing the number of blackouts and increasing system reliability. Scope of various activities under different sectors to take DSM measures are summarized as follows:

Area	Activities
Municipal Sector	(i) Lighting (ii) Pumping (iii) PF Correction
Agricultural Sector	(i) Lighting (ii) Pumping
Government Buildings	(i) Air Conditioning (ii) Lighting (iii) PF Correction
Multistory Complexes	(i) Energy Efficient Building Construction
Commercial Buildings	(i) Lighting

Efficiency Improvements in Thermal Power Stations	(i) All State Generating Units

4.1. PROPOSED CAPITAL EXPENDITURE FOR FY 2017-18 TO 2019-20

Regulation 23A of the MYT Distribution Tariff Regulations, 2014 provides for consideration of capital expenditure for the purpose of determination of ARR for the Control period. In line with the regulations, the Petitioner has projected the capital expenditure during the control period on account of each of the schemes to be executed. Further the Petitioner by way of this Petition is seeking Hon'ble Commission approval for the schemes for which the capital expenditure has been proposed for more than Rs. 10 crore. Further the financing plan for each of the capex scheme proposed by the Petitioner for the Control period has been detailed in the succeeding sections. Also the Petitioner has projected the capital expenditure to be done from the deposit works received as consumer contribution towards cost of capital asset. The procedure prescribed by the MYT Distribution Regulations towards claiming the capital investment plan has been strictly complied in the current Petition. The physical and financial progress of the ongoing and new capex schemes has also been provided in the MYT Business Plan.

The Discom is in the process of strengthening its Distribution Network to meet the load growth requirement of Uttar Pradesh. The outlay in the current year is mostly against ongoing works considering physical progress of those schemes. For new schemes pre-project activities are initiated like feasibility study, financial sanction from BOD and ETF. Where tenders are issued and evaluated based on the financial sanction, the work orders are placed for project executions. On commencement of project execution, schemes are shifted from the database of new schemes to ongoing schemes during a quarterly project review. The following table summarises the physical targets during 2017-20 period:

Table 4.1-1: Physical Targets for the Plan Period FY 2017-18 to 2019-20

4.2. ONGOING AND NEW CAPITAL WORKS

Ongoing and New Capital Works record has been consolidated under different head of capital expenditure wherein the capital expenditure funds are sanctioned including Business Plan, Vypar Vikas Nidhi, PTW, Dr. Ram Manohar Lohiya, R-APDRP - Part B Scada, DDUGJY, IPDS, Under Ground Caballing and IPDS. The Ongoing work has been shown in the table given below. The table below provides detailed breakup of each of the scheme along with the Physical Target and Proposed Capital Expenditure.

5. YEAR WISE CAPITAL INVESTMENT AND FINANCING PLAN

The capital expenditure planned under Business Plan, Vypaar Vikas Nidhi and RML schemes is done through complete funding of State budget, however for the purpose of this Business Plan, the projected capital expenditure is considered to be funded in a debt equity mix of 70:30, being in line with the MYT Distribution Tariff Regulations and established philosophy of the Hon'ble Commission. The Petitioner has considered a normative gearing of 70:30. Considering this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be financed through equity contributions. The portion of capital expenditure financed through consumer contribution, capital subsidies and grants has been separated as the depreciation and interest thereon would not be charged to the beneficiaries. The year wise phasing of the capital investment is provided in the table below.

Table 5-1: Year wise Phasing of the Capital Investment

(Figures in Rs Crore)

FY	Loans	Equity / Internal Accruals	Deposit Works	Total
2016-17	1167.83	500.50	233.57	**1901.90**
2017-18	1348.17	577.79	269.63	**2195.59**
2018-19	1,636.07	701.17	327.21	**2664.45**
2019-20	865.36	370.87	173.07	**1409.29**

Note: The figures provided are in respect of capital investment proposed to be undertaken in each financial year. In case of certain schemes, the capital expenditure as well as the capitalisation would spill over beyond the plan period. Similarly at the start of the plan period, there are opening CWIP balance in respect of certain schemes which would get completed in the plan period.

Other assumptions for capitalisation of the aforementioned Capital expenditure plan is detailed as below:

The assumptions used for projecting GFA and CWIP are as follows:

मुख्य अभियन्ता (वितरण)
दक्षिविवितनिलि, आगरा

- 40% the opening CWIP and 40% of investment made during the year, expenses capitalized & interest capitalized (40% of total investment) has been assumed to get capitalized during the year.
- Investment through "deposit work" has been taken for capital formation. However depreciation thereon has not been charged to the ARR in line with the policy adopted by Hon'ble Commission in its previous Tariff Orders.

The capital investment plan (net of deposit works) has been projected to be funded in the.

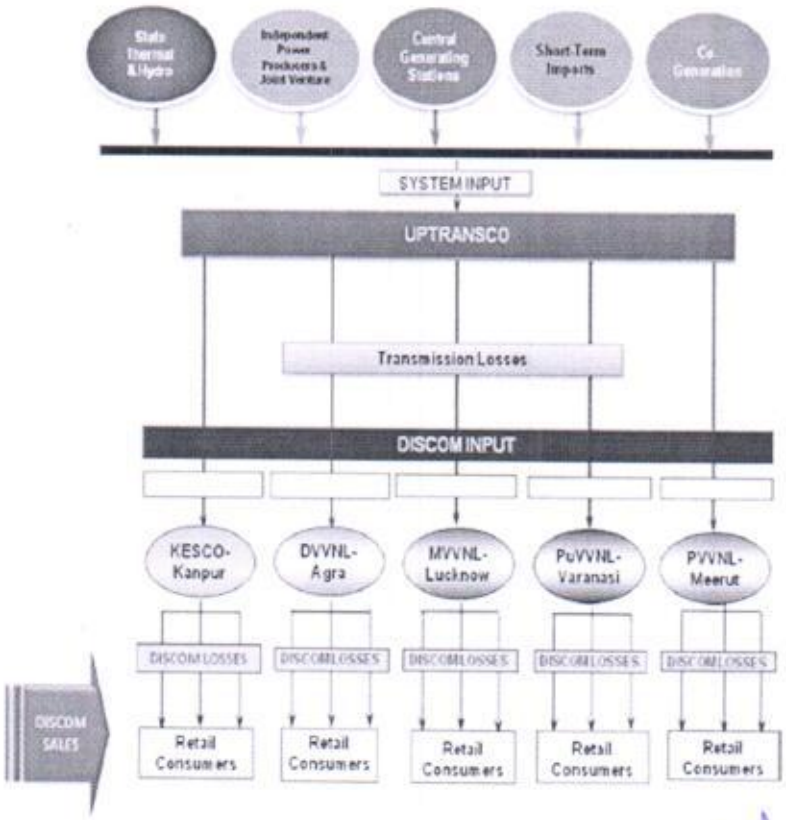
6. LOAD FORECAST AND REVENUE ASSESSMENT

The Petitioner has projected the category-wise load growth based on the CAGR of the last eight years data and considering factors like available population data, expected conversion of unauthorized connections, connected load factor and specific growth factors. While projecting the data for past years, wherever the data was incongruous such incongruity was ignored while projecting the load growth for the ensuing years. The forecast projects the specific consumption level (consumption per customer) appropriate for each customer category. This forecast is based on expected growth relationships to income and price, the effect of Demand Side Management and the impact of hours of service. The specific consumption level along with the number of customers in each category gives the sales figure for that particular sub-category. The final detailed calculations estimate the connected load by tariff category. The division level forecasts are consolidated and losses are added to the sales estimates to determine energy generation requirements.

The schematic diagram for Energy flow in state of UP is depicted in figure below:

Table 6-1: The schematic diagram for Energy flow in state of UP



मुख्य अभियन्ता (वाणिज्य)

6.1 DETAILED METHODOLOGY FOR LOAD FORECAST

6.1.1 OVERVIEW

Sales and Load Forecasting involves firstly, building robust and accurate sales forecast and load forecast models that are able to predict energy sales within reasonable margins of error and secondly, application of the models so prepared to provide long term forecast of energy sales to various consumer sub categories (based on tariffs applied) and the total energy requirement to meet the demand.

6.1.2 METHODOLOGY

The following methodology was followed for Sales and Load Forecasting:

Consumer category wise commercial data of each discom comprising Number of consumers/ Connected load (kW)/ Energy sales (billed energy): kWh, split between rural/urban consumers was tabulated for the past years. Further as the provisional billing determinants were available for FY 2016-17, the same has been considered while computing the multiplying factor for the purpose of projection of demand, connected load and no. of consumers for the MYT period. Also it would be imperative to mention that since all UPPCL discoms have been moving aggressively towards the target of 24x7 Power for All by Oct, 2018 and accordingly in the last financial year the supply hours for rural and domestic consumer have also been increased as a first step. Thus wherever the billing determinants in terms of Connected Load per Consumer, Consumption per connected Load, Consumer per consumer, etc being considered as a CAGR for previous year is low in comparison to the no. so derived for FY 2016-17, the Petitioner for the purpose of MYT Projections has considered the FY 2016-17 as the norms for determining the billing determinants for the MYT period.

3 years' (2013-14 to 2015-16) compounded annual growth rate (CAGR) was determined for the following parameters consumer sub-category wise:

- Number of consumers
- Connected load: kW
- Energy sales (billed energy): kWh

CAGR for each of three major commercial parameters for 3/5/7/10 years was determined consumer category-wise.

Running hour factor: Load shedding affects different consumer categories differently. Its effect was taken into account through a factor of present running hour supply and projected hour supply.

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल वि०वि०नि०लि०, आगरा

However, no adjustment on account of load shedding was made in case of the following:

a) Following consumer categories:

- Industrial
- Agricultural (assuming that the water output of agricultural pump sets in the limited hours of supply is enough for meeting the irrigation requirements)
- Railway traction

The Energy Billed was calculated by applying the factor to the remaining consumer categories in all areas. This was done step-wise as follows:

b) Projecting the running hours supply;

c) Obtaining the factor of running hours supply between present supply hours and projected hours supply;

d) Sub-category Energy billed in % tabulated by way of Mahanagar, Commissionary, Districts, Bundelkhand and Rural Area according to the prevailing classification of the Areas; and

Table 6-2: Projected Hours of Supply

Bundelkhand - B	20:00	20:00	24:00	24:00

Demand Side Management - Category wise energy Billed was calculated by applying the DSM factor.

Following three ratios were determined for each set of commercial data of a given consumer category/ sub-category for each year:

e) Energy sales per consumer

f) Connected load per consumer

g) Energy sales/Connected load

Sales Forecasting: LV Consumers – Sub-category-wise

a) Number of consumers:

Adopted appropriate value of CAGR in the following manner:

- Normally 3 years' CAGR of number of consumers (sub-category wise)was adopted
- Wherever calculated value of 3 years' CAGR of number of consumers seemed unreasonably high or low, the most reasonable calculated value between 5/7/10 years' CAGR was adopted. The adopted value of CAGR was applied across all sub-categories within a given consumer category.
- Applied the CAGR so adopted to determine forecasted values of number of consumers, taking 2016-17 as the base year. .

b) Connected load:

Multiplied number of consumers by the highest ratio of connected load per consumer calculated for the last three years to determine consumer sub-category wise connected load forecasts corresponding to forecasted values of number of consumers.

c) Energy Sales:

i. LMV 1 & LMV 10 Consumer categories:

Forecasted value of energy sales for each consumer sub-category was determined by multiplying the number of consumers by the highest value of energy sales per consumer for the last three years. Wherever the highest value of energy sales per consumer was found to be unreasonably high, the second highest value of the above ratio was adopted as the multiplier for determining energy sales corresponding to the forecasted value of number of consumers.

ii. LMV Consumer categories (metered)other than LMV1 & LMV10 consumer categories:

Adopted the highest value of energy sales per kW connected load for a given consumer sub-category for the last three years as the multiplier to obtain forecasted value of energy sales corresponding to the forecasted value of connected load.

iii. LMV: Unmetered consumers (except rural state tube wells):

Forecasted value of energy sales for a given consumer sub-category was obtained by multiplying the forecasted value of connected load by the standard value of energy sales per kW connected load laid down in the norms.

iv. Rural state tube wells:

Forecasted value of energy sales was obtained by multiplying the forecasted value of number of consumers by the standard value of energy sales per consumer laid down in the norms as below:

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

Table 6-3: Consumption Determinant for Un-Metered Consumer

Sr.No	Category of Un-Metered Consumer	Units	Consumption of Energy Per Month
1	Private Tube Well	KWh/KW/Month	183.32
2	Domestic Rural Consumers	KWh/KW/Month	144
3	Rural Commercial Consumers	KWh/KW/ Month	144
4	Rural State Tube Well	KWh/Consumer or Pump/Month	7124.71
5 -A	Street Light - Rural Area	KWh/KW/Month	300
5 -B	Street Light - Urban Area	KWh/KW/Month	360

Sales Forecasting: HV Consumers – Sub-category-wise

a) **Connected Load:**

Forecasted value of connected load for a given sub-category for a given year was determined by applying the 3 years' CAGR of connected load calculated for the particular consumer sub-category, taking 2016-17 as the base year. Wherever the 3 years' CAGR appeared unreasonably high or low, the figure from amongst CAGR of connected load for a given consumer category calculated for 5/7/10 years that seemed most reasonable, was adopted as the CAGR to be used for forecasting. This value of CAGR was applied to all sub-categories comprising a given consumer category.

b) **Number of consumers:**

Forecasted number of consumers corresponding to the forecasted value of connected load for a consumer sub-category in a given year was determined by dividing connected load by the value of connected load per consumer calculated of the preceding year.

c) **Energy sales:**

- Year wise and sub-category wise energy sales forecasts were obtained by multiplying the forecasted value of connected load by the highest ratio of energy sales per kW connected load of the last three years.

- Year wise and sub-category wise energy sales forecasts were obtained by multiplying the forecasted value of sales MU by the running hour factors.
- Year wise and sub-category wise energy sales forecasts were obtained by multiplying the forecasted value of sales MU by the DSM factors.

6.1.3 CONSUMER ADDITION

Considering the projections as per census, there are 2.89 crore rural households in the state. Out of them, 0.92 crore rural households already exist in UP Discom's records. Further the total no. of consumers for the DVVNL discom as on 31st March, 2017 is 0.37 crore. The State undertook a survey in FY 15 to map habitations having drinking water supply. This survey also captured the status of electrification and accordingly, was considered during finalization of DDUGJY scheme. As per the survey, 0.25 crore households were being served through existing network. Also, under various ongoing rural electrification schemes, about 1.09 crore un-electrified households (or approximately 1,62,000 habitations) were targeted to be served through additional network being created.

Thus there are around 1.12 crore un-electrified rural households in the State. Also around 0.15 crore unelectrified households also exists in urban areas. State also envisages to target the electrification of these remaining 0.15 crore urban households by September 2018 after undertaking appropriate augmentation/ extension of the existing network of urban areas. In addition to the above, Discoms also have a challenging task to regularize and meter around 84 Lakh electricity consumers. Accordingly, the Disocms under the Power for All agreements has formulated a plan for adding the aforementioned consumers in the Distribution Network of Discoms by FY 19. The Year-wise, Quarter-wise Targets for each discom for adding these consumers as considered in the MYT Projections is tabulated below:

Table 6-4: Discom wise Consumer Addition Plan

The above consumer addition plan has, in line with the 24x7 Power for All agreement signed between the Government of India and State Govt. Further, for the purpose of the energy estimation during the control period, the Consumer addition has been considered to be spread over the year and accordingly the addition in connected load and energy sales has been worked out for each individual discom.

6.1.4 100% METERING OF CONSUMERS

There is a large proportion of electrified domestic registered consumers who haven't installed meters. As per FY 17 data, unmetered domestic consumers account for around 40% (70 Lakh) of the total domestic registered consumers. The unmetered consumption is one of the reason behind the high loss levels in the state and hence it is of utmost importance. Though the Discoms have already submitted a 100% metering plan before the Hon'ble Commission, however since now the category and sub-category wise provisional no. of consumers till March, 2017 is available, the Discoms is under process of submitting a revised 100% metering plan to the Hon'ble Commission. It is planned to achieve 100% metering at all levels (consumers/DTs/feeders) to facilitate energy audit and extensive use of technology to improve efficiency and facilitate near real time monitoring and interventions to reduce AT&C losses. The Discoms have planned to get all the consumers metered by FY 2019. Accordingly, the Year-wise, Discom wise 100% metering plan is tabulated below:

Table 6-5: Discom wise Metering Plan

6.1.6 PROJECTIONS FOR INPUT ENERGY

a. % Distribution Losses:

Approximate distribution losses figures in % for the MYT period are provided two years were assumed as given in the following table:

Table 6-7: Distribution Losses Trajectory

Discom	2015-16	2016-17	2017-18	2018-19	2019-20
Meerut	18.66%	18.55%	18.18%	15.20%	11.80%
Agra	27.79%	28.44%	20.07%	16.25%	12.10%
Lucknow	22.24%	22.21%	19.16%	16.09%	11.80%
Varanasi	23.02%	21.63%	19.73%	16.43%	12.20%
KESCO	20.13%	15.60%	15.20%	15.05%	11.74%

b. Transmission Losses:

Intra-state and inter-state transmission losses, to be added to the power delivered at the discoms at their input points to arrive at the energy required at the power plant bus bars, have been taken as 5.41% for FY 2017-18, 5.14% for FY 2018-19 and 4.89% for FY 2019-20.

c. Allocation of Additional Energy:

The difference of Energy Requirement and available at discom level was allocated to all categories except HT, Agriculture and Railway on the basis of existing share in sales.

6.1.7 INPUT ENERGY REQUIREMENT

Input energy requirement was determined from Energy Billed using the following relationship:

Input Energy = Energy Billed ÷ (1-% Technical & Distribution Loss)

Table 6-8: Input Energy Requirement At DisCom Level

Discom	2015-16	2016-17	2017-18	2018-19	2019-20

6.2 SALES FORECAST

The year 2017-18 is expected to see a substantial jump in the total availability of energy at the source power plant bus bars at around 1,28,935 MU when compared to around 1,07,569 MU in 2016-17 for Uttar Pradesh as a whole. The demand of most consumer categories and discoms is presently constrained by availability which falls substantially short of demand. Hence, with increased availability of energy, the projected sales are expected to rise not only on account of natural load growth but also because of easing of supply constraints.

Total availability of energy for 2018-19 is around 1,53,603 MU and for 2019-20 is around 171,858 MU . The projected sales will be impacted by normal load growth and increased hours of supply.

7. POWER PROCUREMENT PLAN FOR THE MYT CONTROL PERIOD

EXECUTIVE SUMMARY

This report presents the list of key assumptions and methodology employed for estimating the power procurement plan and cost therein for the 1st MYT Control Period.

The key inputs to the power procurement plan are the load forecast for the 1st MYT Control Period, technical parameters of thermal plants of UPRVUNL & UPJVNL plants, fuel costs and tariff (i.e. capacity and energy charges) for central sector plants as well as State Sector & IPPs. For UPRVUNL plants, the Petitioner has taken in to consideration the respective Multi-year Tariff (MYT) Petitions filed by UPRVUNL before the Hon'ble Commission. The other technical parameters have been taken from the Uttar Pradesh Electricity Regulatory Commission (Multi Year Generation Tariff) Regulations, 2014 issued by UPERC in respect of state generating stations. The estimated power availability from various sources has been made on the basis of

- Current long term allocation of allocated and unallocated power from State owned/ Central Sector generating stations and IPPs
- New generating capacity coming in ensuing year and during the MYT Control Period
- Indicated availability and plant load factors of various generators and
- Past availability trends and other relevant information in absence of specific indication by some generators.

Similarly, the cost estimates are based on relevant tariff orders, recent bills, existing arrangements, notifications, etc., for various individual sources. The projected availability from various firm sources of power and associated cost estimates are detailed in the sub-sections below. Various documents referred while estimating these parameters, including energy bills from various generating stations for the period upto March, 2017.

The energy sales, system losses and total power procurement costs for 1st MYT Control period are provided below:

Particulars	Unit	2017-18	2018-19	2019-20
		MYT Projections	MYT Projections	MYT Projections
Energy Sales	MU	98,694	122,494	144,830
System Losses (Including Distribution and Transmission Losses)	%	23.44%	20.24%	16.26%
Energy Required at UPPCL Level	MU	128,908	153,577	172,955
Total Power Procurement Cost at UPPCL Level	Rs Crore	52,919	66,033	77,433
Average Power Procurement Cost at UPPCL Level	**Rs/kWh**	**4.11**	**4.30**	**4.48**

POWER PROCUREMENT FROM STATE GENERATING STATIONS

The State of Uttar Pradesh has got both thermal as well as hydro generating stations. UPRVUNL owns all the thermal generating stations within the State and the Hydro Stations are owned by UPJVNL. The Multi Year Tariff (MYT) Petitions filed by the UPRVUNL before the Hon'ble Commission and the UPERC (Terms and Conditions of Generation Tariff) Regulations, 2014 form the basis for determining

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि., आगरा

the power purchase costs and thereafter escalations have been considered in the Fixed & Variable Charges for determination of cost for the 1st MYT Control Period.

The computation of cost of power procurement for the 1st Control Period has been done based on

- Provisional power purchase cost and units of FY 2015-16 and FY 2016-17
- Trend observed in the previous and current year.
- Impact of loss reduction initiatives.
- Estimated growth in sales.
- Share of expected capacity available from various Generators to the UPPCL / Discoms.

The projected quantum and cost of energy available from State Thermal and Hydro generating stations has been derived by the Licensee from tariff petitions filed by the UPRVUNL before the Hon'ble State Commission and the UPERC (Terms and Conditions of Generation Tariff) Regulations 2014. Additionally, the Petitioner has also considered the actual energy bills for the period April 2016 to March, 2017. Thus the total power purchased from State Thermal and Hydro Generating Stations for FY 2017-18 is given in the table below:

DETAILS OF POWER PURCHASE COST FROM UPRUVNL STATIONS FOR FY 2017-18

The assumptions considered while projecting the power purchase from the State owned thermal generating stations and Hydro stations are given below in Table below for each source respectively:

ASSUMPTIONS FOR POWER PURCHASE FROM UPRVUNL

S. No.	Particulars	Assumption
1	**Power Purchase Quantum**	Net Power Purchase Quantum for FY 2017-18 is considered based on the Provisional Availability for FY 2016-17 and thereafter for the next two years of the Control Period it has been assumed that all the stations will be able to perform at their target availability. The Auxiliary Consumption norms have been considered in line with the UPERC MYT Generation Tariff Regulations, 2014.
2	**Fixed & Variable Charges**	The Capacity Charges have been considered based on the UPERC's Review Order dated 18.01.2017 for UPRVUNL for the period FY 20014-15 to 2018-19. Thereafter an yearly increase of 4% has been considered for FY 2019-20. An increase of 3% has been considered for calculation of the Variable Charges for each power station. Additionally the improvement in norms and operation parameters along with other changes in cost

S. No.	Particulars	Assumption
		parameters stipulated by the UPERC (Terms and Conditions of Generation Tariff) Regulations, 2014 have been duly considered while projecting the capacity and energy charges.

ASSUMPTIONS FOR POWER PURCHASE FROM UPJVNL

S. No.	Particulars	Assumption
1	**Power Purchase Quantum**	Net Power Purchase Quantum for the MYT Period for all power stations of UPJVNL has been considered based on the latest bills available for last year
2	**Fixed & Variable Charges**	The same for all power stations of UPJVNL has been considered based on the latest bills available for last year with an escalation of 4%.

CAPACITY ALLOCATION FROM CENTRAL GENERATING STATIONS & OTHER STATIONS

Central Generating Stations (CGS) comprise of stations belonging to the National Thermal Power Corporation (NTPC), National Hydro Power Corporation Ltd. and the Nuclear Power Corporation of India Ltd. (NPCIL). At present, UPPCL has a firm share allocation for drawl of power from all stations of NTPC, NHPC and NPCIL Stations. In addition to the firm share allocation, most of these stations have unallocated power. The distribution of this unallocated power among the constituents of Northern Region is decided from time to time based on power requirement and power shortage in different States. UPPCL also gets a substantial portion of the unallocated share.

UPPCL's current Allocated share from various Central Sector Plants is projected as per NRPC circular which contains the UPPCL's total share includes the allocated share from unallocated power also.

The variable (Primary & Secondary fuel) costs of Central Sector plants and other plants have been taken from the energy bills for the period FY 2015-16 and 2016-17 and are inclusive of FPA. All variable costs have been escalated by 3% for the control period.

The computation of cost of power procurement for the 1st Control Period has been done based on

- Provisional power purchase cost and units of FY 2015-16 and 2016-17
- Trend observed in the previous and current year
- Impact of loss reduction initiatives.
- Estimated growth in sales.
- Share of expected capacity available from various Generators to the Licensee

मुख्य अभियन्ता (वाणिज्य)
द.वि.वि.नि.लि., आगरा

The cost of power purchase from IPPs within the State and outside the State has been derived from the latest available bills of the generators for the period FY 2015-16 and 2016-17. The cost of energy from other sources has been derived from the power purchase / banking / trading agreements and tariffs approved by the Central / Appropriate Commissions. Further the fixed charges and variable charges have been escalated by 4% all power stations.

The power purchased from NTPC generating stations for FY 2017-18 is provided in table given below:

DETAILS OF POWER PURCHASE COST FROM NTPC STATIONS FOR FY 2017-18

The assumptions considered while projecting the power purchase from the NTPC generating stations is given in Table below:

ASSUMPTIONS OF POWER PURCHASE FROM NTPC

S. No.	Particulars	Assumption
1	**Power Purchase Quantum**	Net Power Purchase Quantum is derived as a product of respective power plants MW capacity, plant load factor (PLF) and UP state's share in respective power plant. Further the quantum is approved as per Merit order despatch principles. We have also referred to the actual plant load factor of such stations for the last 2 years while projecting the PLF for the Control period.
2	**Fixed Charges**	Fixed charges are computed after considering UP state's allocated share in respective power plant as per Regional Energy Accounting Report and Annual Report of NRPC and ERPC and fixed cost as per the latest available bills of the generating station. Further the escalation factor has been considered @ 4%.
3	**Variable Charges**	Variable cost is considered as per the recent energy bills raised for the period FY 2015-16 and 2016-17. Further the escalation factor has been considered @ 4%.

The summary of power purchased from NHPC generating stations is provided in table given below:

The assumptions considered while projecting the power purchase from IPP's and Joint Ventures (JV's) is given in table below:

ASSUMPTIONS FOR POWER PURCHASE FROM IPPS / JVs -

S. No.	Particulars	Assumption
1	**Power Purchase Quantum**	Net Power Purchase Quantum is derived as a product of respective power plants MW capacity, capacity factor and UP state's share in respective power plant.
2	**Tariff (Single part &**	Fixed and Variable Charges have been considered as per the

	Two part)	recent energy bills raised for the period FY 2015-16 and 2016-17. Further the escalation factor has been considered @ 4%.

The Petitioner has signed PPAs under Case-1 bidding from various generators and traders such as PTC India Limited (TRN Energy & MB Power), Lanco Babandh, KSK Energy. The scheduled date of supply was 1.10.2016. However, early supply from PTC India (MB Power) and KSK Energy has already commenced from August and October 2015 respectively. Accordingly, the projected power purchase from such generators have been projected at the yearly tariff streams quoted by such generators in the Case-1 bids.

The summary of power purchased from Co-generating stations for the 1st Control Period is provided in table given below:

POWER PURCHASE COST: STATE CO-GENERATION FACILITIES FOR FY 2017-18

Source of Power	MU	Fixed Cost		Variable Cost		Total Cost		Average Cost
		(Rs. / kWh)	(Rs. Cr.)	(Rs. / kWh)	(Rs. Cr.)	(Rs. / kWh)	(Rs. Cr.)	(Rs. / kWh)

8. FINCNCIAL PLAN FOR FY 2017-18 TO FY 2019-20

The Hon'ble Commission has issued MYT Distribution Tariff Regulations, which require that the Distribution Licensee shall file Aggregate Revenue Requirement (ARR) complete in all respect along with requisite fees as prescribed by the Commission. The ARR Petition shall contain details of estimated expenditure and expected revenue that it may recover in the ensuing financial year at the prevailing rate of tariff. Further the Distribution Tariff Regulations require that ARR shall separately indicate Aggregate Revenue Requirement (ARR) for Wheeling & Retail Supply function embedded in the distribution function. Till such time complete segregation of accounts between Wheeling and Retail Supply Business takes place, ARR proposals for Wheeling and Retail Supply Business shall be prepared based on an allocation statement to the best judgment of the distribution licensee. The Hon'ble Commission in MYT Distribution Tariff Regulations has broadly classified cost incurred by the licensee as controllable & uncontrollable costs. Uncontrollable cost include fuel cost, increase in cost due to changes in interest rate, increase of cost due to inflation, taxes & cess, variation of power purchase unit costs etc. In its Tariff Order for 2007-08, the Hon'ble Commission used allocation methodology for segregation of Wheeling & Retail Supply business function of ARR. The Petitioner has adopted the same methodology for deriving wheeling charges, as the complete segregation of accounts between Wheeling and Retail Supply business has not yet been completed.

COMPONENTS OF ANNUAL REVENUE REQUIREMENT

The Hon'ble Commission notified Uttar Pradesh Electricity Regulatory Commission (Multi Year Distribution Tariff) Regulations, 2014 on May 12th, 2014. Regulation 24 of the MYT Distribution Regulations provides the principles for determination of ARR wherein the Aggregate Revenue Requirement for the Distribution Business of the Distribution Licensees for each year of the Control Period, shall contain the following financial parameters:

- Cost of power procurement;
- Transmission & Load Dispatch charges;
- Operation and Maintenance expenses;
  - Employee Expenses
  - Repair and Maintenance Expenses
  - Administrative & General Expenses
- Depreciation;
- Contingency Reserves;
- Interest on Loan;
- Interest on Working Capital;
- Bad Debts;
- Return on Equity;
- Income Tax;
- Non-Tariff Income; and
- Income from Other Business

8.1 POWER PURCHASE COSTS

As per the source wise details provided in the previous sections of this Business Plan.

The total power purchase quantum along with the yearly inter-state transmission charges (PGCIL) as envisaged in the MYT Petition, are summarized below:

Table 8-1: Power Purchase Summary

Financial Year	Power Purchase MU's	Power Purchase Cost (Rs. Crore)	PGCIL Charges (Rs. Crore)	Total Power Purchase Cost at UPPCL Level (Rs. Crore)
2017-18	128,908	52,919	1,868	**54,787**
2018-19	153,577	66,033	2,317	**68,350**
2019-20	172,955	77,433	3,031	**80,465**

Table 8-2: Projected Power Purchase Costs for the Tariff Period for DVVNL

Particulars	Derivation	2017-18	2018-19	2019-20
Energy Sales (MU)	A	20,240.98	25,349.76	29,689.77
Distribution Loss (%)	B	20.07%	16.25%	12.10%
Distribution Loss (MU)	C = A/(1-B)-A	5,082.40	4,918.61	4,086.99
Power Purchase Required (MU)	D=A+C	25,323.38	30,268.37	33,776.76
Bulk Power Purchase Rate (Rs/kWh)	E	4.49	4.69	4.89
Power Purchase Cost (Rs Crore)	**F=DxE/10**	**11,378.70**	**14,201.57**	**16,521.54**

8.2 TRANSMISSION CHARGES

The inter-state transmission charges payable by the UPPCL to PGCIL during the MYT period as projected in the table below. The PGCIL charges consequent to inter-state transmission is being levied on energy procured from NTPC, NPCIL, NHPC, SJVNL, Tehri, TALA and others generator supplying power from outside the boundary of the state. These charges have been incorporated in Power Procurement Cost. The petitioner submits that while considering power procurement to meet the State's requirement, losses external to its system i.e., in the Northern Region PGCIL system need to be accounted for.

The projections of transmission charges have been traced from the ARR/MYT Tariff Petition filed by U.P. Power Transmission Corporation Ltd (UPPTCL) for the 1st MYT control period filed before the Hon'ble Commission.

In such Petition U.P. Power Transmission Corporation Ltd has projected transmission charge at the rate of Rs. 0.2071 per kWh for FY 2017-18, Rs. 0.2365 per kWh and Rs. 0.2622 per kWh in FY 2019-20, Accordingly licensee has estimated the cost of intra state transmission charges for the MYT period in the tables given below.

Table 8-3: Projected Transmission Charges for DVVNL

Particulars		FY 2017-18	FY 2018-19	FY 2019-20
Energy Procured (MU)	A	25,323	30,268	33,777
Transmission Tariff (Rs/kWh)	B	0.2071	0.2365	0.2622
Transmission Cost (Rs Crore)	C=AxB/10	**524.45**	**715.85**	**885.63**

8.3 OPERATION & MAINTENANCE EXPENSES

The MYT Distribution Tariff Regulations, 2014 mandates the Commission to stipulate a separate trajectory of norms for each of the components of O&M expenses viz., Employee cost, Repairs and maintenance (R&M) expenses and Administrative and General Expenses (A&G) Expenses.

Regulation 25 of the MYT Distribution Regulations issued by the Hon'ble Commission provides the methodology for projection of Operation & Maintenance expenses for the control period. O&M expenses comprise of Employee costs, Administrative & General (A&G) Expenses and Repair & Maintenance (R&M) expenses. Further the detailed methodology stated in Regulation 25 of the MYT Distribution Regulations is re-produced as below:

"25. Operation & Maintenance Expense

(a) The Commission shall stipulate a separate trajectory of norms for each of the components of O&M expenses viz., Employee cost, Repairs and maintenance (R&M) expense and Administrative and General Expense (A&G) expense. Provided that such

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि०, आगरा

norms may be specified for a specific Distribution Licensee or a class of Distribution Licensees.

(b) Norms shall be defined in terms of combination of number of personnel per 1000 consumers and number of personnel per substation along with annual expenses per personnel for Employee cost; combination of A&G expense per personnel and A&G expense per 1000 consumers for A&G expenses and R&M expense as percentage of gross fixed assets for estimation of R&M expenses:

(c) One-time expenses such as expense due to change in accounting policy, arrears paid due to pay commissions etc., shall be excluded from the norms in the trajectory.

(d) The expenses beyond the control of the Distribution Licensee such as dearness allowance, terminal benefits etc. in Employee cost etc., shall be excluded from the norms in the trajectory.

(e) The One-time expenses and the expenses beyond the control of the Distribution Licensee shall be allowed by the Commission over and above normative Operation & Maintenance Expenses after prudence check.

(f) The norms in the trajectory shall be specified over the control period with due consideration to productivity improvements.

(g) The norms shall be determined at constant prices of base year and escalation on account of inflation shall be over and above the baseline.

(h) The Distribution Licensee specific trajectory of norms shall be identified by the Commission on the basis of simple average of previous five years audited figures, duly normalized for any abnormal variation.....".

Thus, the MYT Distribution Tariff Regulations, 2014 provides for determination of the Employee cost norm, which would evidently be done pursuant to the benchmarking study. The Discom has successfully completed its benchmarking study of operational parameters in line with the MYT Distribution Tariff Regulations, 2014 and has also submitted the report to the Hon'ble Commission. Further, as per the observations and comments of the said benchmarking report the number of personnel per 1000 consumers in case of DVVNL is 1.92 as compared to the statistical mean of the data of sample Discoms (excluding UP Discoms) which is 2.85, which is owing to significant under deployment of personnel against sanctioned employee strength. Thus, the employee engagement has to be seen as working employee strength vs. sanctioned employee strength. It depicts that the actual deployment of staff is hardly 72% against the sanctioned employee strength, there by depicting that it is acutely under-staffed. The shortage is even more pronounced in respect of technical staff as compared to non-technical staff, which is reflective of both lower Employee cost per unit of energy sales as well as lower efficiency scores. Thus the Petitioner plans to increase its no. of employees in order to cater the increasing no. of consumers and sales on account of increase in supply hours and connecting the unconnected consumers of the state.

Accordingly the Petitioner in the instant Petition for the purpose of projecting the Employee costs and Administrative & General (A&G) Expenses, considering the observations made in the benchmarking report has claimed additional establishment expenses on the account that if there would have been no under-staffing and the actual employee strength would be parallel to the sanctioned employee strength, the actual establishment cost would have been higher as compared to what has been reflected in the audited accounts of the Petitioner. For this purpose the Petitioner has taken the financial year 2014-15 as the Base year for which the Audited accounts are available with the Petitioner.

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

8.3.1 EMPLOYEE EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the Employee expenses for the control period FY 2017-18 to FY 2019-20 as per the Regulation 25.1 of the MYT Transmission Regulations as below:-

> *"Employee cost shall be computed as per the approved norm escalated by consumer price index (CPI), adjusted by provisions for expenses beyond the control of the Licensee and one time expected expenses, such as recovery/adjustment of terminal benefits, implications of pay commission, arrears, Interim Relief etc., governed by the following formula:*
>
> *EMPn= (EMPb * CPI inflation) + Provision*
>
> *Where:*
>
> *EMPn: Employee expense for the year n.*
>
> *EMPb: Employee expense as per the norm*
>
> *CPI inflation: is the average increase in the Consumer Price Index (CPI) for immediately preceding three financial years.*
>
> *Provision: Provision for expenses beyond control of the Distribution Licensee and expected one-time expenses as specified above."*

Further the Petitioner has also considered the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The Petitioner has considered the base year as '2014-15', for which the audited accounts are available as on the date of submission of the Multi-Year Tariff Petition. The Petitioner in the following table has worked out the norms depicting cost of per employee deployed based on the actual employee expenses incurred during the past five financial years:

Table 8-4: Norms - Rs. Crore Employee Cost per 1000' Consumers

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	Average of 5 years
Gross Employee Costs	239.83	249.42	272.37	309.77	264.78	**0.099**
No. of Consumers	2,280,313	2,426,261	2,566,021	3,099,144	3,229,391	
Norms per 1000 consumer	0.105	0.103	0.106	0.100	0.082	

The Petitioner has considered the above worked out norm of Rs. Crore employee cost per 1000' Consumers as the employee cost per 1000's consumer for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the CPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of employee expenses for the MYT Period. The determination of Rs. Crore employee cost per 1000' employee and thereafter the total employee cost in Rs. Crore for the Control period is depicted in the table below:

Table 8-5: Determination of Employee Cost per employee for FY 2017-18 (Rs. Crore)

Particulars	Base Value	2016-17	2017-18	2018-19	2019-20
CPI Inflation		4.12%	7.21%	7.21%	7.21%
Norms per 1000 consumer (Rs Crore)	0.099	0.116	0.124	0.133	0.143
No. of Consumers		3,663,851	4,884,220	7,004,281	8,005,838
Employee Expenses (Rs Crore)		**424.98**	**607.36**	**933.74**	**1,144.16**

Further in addition to above, the Petitioner also requests the Hon'ble Commission to allow the additional Employee Expenses on account of increase in No. of Employees to cover up the

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल वि.वि.नि.लि. आगरा

under deployment of the staff at the Discom end. The work out the same the Petitioner has considered the data for FY 2014-15, being the latest available audited accounts of the Petitioner and thus the same would provide a true and fair picture of the employee strength vis-a-cis the employee cost of the Petitioner.

The Sanctioned employee strength for DVVNL for FY 2014-15 is 9114, against which the actual no. of employees deployed are 6630, thus there is a shortage of 2484 employees resulting in under-performance of the disocms in terms of operational parameters. Therefore to determine the additional cost on account of increase in employee strength the Petitioner in the below table as a first step has worked out the Notional Gross establishment expenses for FY 2014-15, had been the complete employee sanctioned strength was deployed at the Petitioner's office, to reach at the Base value of Gross establishment cost for the year as detailed in the table below:

Table 8-6: Additional Employee Expenses for FY 2014-15

Particulars	Unit	Amount
Gross Establishment Expenses for FY 2014-15	Rs. Crore	310
Actual No. of Employees	No.s	6,630
Sanctioned Employees	No.s	9,114
Under Deployment of Employees	**No.s**	**2,484**
Gross Employee Expenses considering the full Sanctioned Employees being the Actual Employees	Rs. Crore	426
Additional Employee Cost for the year if total sanctioned employees are being hired	**Rs. Crore**	**116.06**

Thereafter the above derived employee cost has been escalated by average increase in the CPI inflation index for FY 2015-16 and 2016-17 to reach the base values for projection of additional employee cost for the MYT period as detailed in the table below:

Table 8-7: Additional Employee Expenses projected for the MYT Period (Rs. Crore)

Particulars	Base Value	2016-17	2017-18	2018-19	2019-20
CPI Inflation		4.12%	7.21%	7.21%	7.21%
Additional Employee Cost	116.06	**127.66**	**136.86**	**146.72**	**157.30**

Thus, the total gross employee expenses claimed for the control period in depicted in the table below:

Table 8-8: Gross Employee Expenses for the MYT Period (Rs. Crore)

Particulars	2017-18	2018-19	2019-20
Employee Costs as per the provisions of the MYT Regulations	607.36	933.74	1,144.16
Additional Employee expenses on account of increase in Employee Strength	136.86	146.72	157.30
Gross Employee Expenses	**744.22**	**1,080.47**	**1,301.45**

The Petitioner further submits that the 7th pay is expected to be implemented in the state by next financial year i.e. FY 2017-18. Thus in addition to the above the Petitioner has also claimed arrears and implications of the 7th pay commission which are expected to be discharged in FY 2017-18 and subsequent years. Since the 7th pay is effective from 1st January 2016, hence the impact of the 7th pay over the employee expenses is computed for different years starting from FY 2015-16 (last quarter of FY 2015-16). The overall increase in the employee expenses due to implementation of the 7th pay is estimated to be approximately 15%. The Petitioner has computed the yearly impact of the 7th pay by escalating the employees expenses for FY 2015-16 at 15% and the expenses thus arrived are further escalated by the applicable escalation rate of each year to derive the 7th pay impact of subsequent years.

मुख्य अभियन्ता (वाणिज्य)
दविविनि०लि०, आगरा

The impact of the 7th pay for FY 2015-16 and FY 2016-17 are expected to be discharged in FY 2017-18 and FY 2018-19 in two equal installments. Based on the above the overall employee expenses are worked out as follows:

Table 8-9: Employee Expenses for the MYT Control Period (Rs Crore)

Particulars	2015-16 Revised Estimates	2016-17 Revised Estimates	2017-18 MYT Projections	2018-19 MYT Projections	2019-20 MYT Projections

Less: Capitalization	**128.76**	**60.78**	**133.92**	**191.93**	**224.50**
Net Employee Expenses (Rs. Crore)	**253.11**	**344.45**	**758.91**	**1087.59**	**1272.17**

**The 7th pay commission is effective from 1.1.2016. The arrears and revision in salaries are expected to be implemented in F 2017-18. The arrears for FY 2015-16 & FY 2016-17 are expected to be paid in FY 2017-18 and FY 2018-19 in equal installments.*

The employee expenses capitalized during the MYT period have been considered at a normative rate of 15%, in line with the similar methodology considered by the Hon'ble Commission, in its Previous Tariff Orders.

The Petitioner respectfully submits that it has considered the pay revision impact of 15 %, however, the Petitioner reserves the right to claim any deviation in the employee expenses on account of any "recovery/adjustment of terminal benefits, implications of pay commission, arrears, Interim Relief etc." at the stage of truing up.

8.3.2 REPAIR & MAINTENANCE EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the Repair & Maintenance expenses for the control period FY 2017-18 to FY 2019-20 in accordance with provisions of Regulation 25.2 of the MYT Distribution Regulations as re-produced below:-

> *"Repairs and Maintenance expense shall be calculated as percentage (as per the norm defined) of Average Gross Fixed Assets for the year governed by following formula:*
>
> *R&Mn= Kb * GFAn*
>
> *Where:*
>
> *R&Mn: Repairs & Maintenance expense for nth year*
>
> *GFAn: Average Gross Fixed Assets for nthyear*
>
> *Kb: Percentage point as per the norm."*

Thus, R&M expenses as a percentage of Average GFA is calculated by dividing the total R&M expenses with GFA balance of the relevant year. To arrive at the percentage norm or the factor 'Kb' for calculation of R&M expenses for the MYT period the Petitioner has referred to the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The WPI annual escalation index has been considered for for computing the R&M expense for the Control Period.

Accordingly the Petitioner in the instant Petition has firstly worked out the norms for the base year considering the average of past five years of the R&M expenses as a percentage of

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांविद्युलि0, आगरा

average GFA balance for each year. The % base norms of R&M expenses is calculated as depicted in the table below:

Table 8-10: % Norm for R&M Expenses for the MYT Control Period

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	Average of 11-16
Opening GFA	*3,761.63*	*4,265.08*	*4,612.64*	*5,062.05*	*5,980.51*	
Opening Closing	*4,265.08*	*4,612.64*	*5,062.05*	*6,005.82*	*6,557.83*	
Average GFA	**4,013.36**	**4,438.86**	**4,837.35**	**5,533.94**	**6,269.17**	**5.94%**
R&M Expenses	**215.18**	**261.10**	**329.62**	**316.19**	**370.89**	
Kb	**5.36%**	**5.88%**	**6.81%**	**5.71%**	**5.92%**	

The Petitioner has considered the above worked out norm of % R&M expenses of average GFA balance as the % R&M expenses of average GFA balance for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the WPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of repair and maintenance expenses for the MYT Period. The determination of R&M for the control period is depicted in the table below:

Table 8-11: R&M Expenses for the MYT Control Period (Rs. Crore)

DVVNL	2015-16	2016-17	2017-18	2018-19	2019-20
Average GFA	6,269.17	7,093.58	8,398.60	10,271.73	12,360.39
WPI Index		3.67%	1.83%	1.83%	1.83%
Kb	5.94%	6.16%	6.27%	6.38%	6.50%
R&M Expenses	**372.23**	**436.64**	**526.44**	**655.65**	**803.43**

8.3.3 ADMINISTRATIVE AND GENERAL EXPENSES FOR FY 2017-18 TO 2019-20

The Petitioner has computed the administrative and general expenses for the control period FY 2017-18 to FY 2019-20 as per the Regulation 25.3 of the MYT Distribution Regulations stated as below:-

"A&G expense shall be computed as per the norm escalated by wholesale price index (WPI) and adjusted by provisions for confirmed initiatives (IT etc. initiatives as proposed by the Distribution Licensee and validated by the Commission) or other expected one-time expenses, and shall be governed by following formula:

*A&Gn= (A&Gb * WPI inflation) + Provision*

Where:

A&Gn: A&G expense for the year n A&Gb: A&G expense as per the norm WPI inflation: is the average increase in the Wholesale Price Index (WPI) for immediately preceding three financial years Provision: Cost for initiatives or other one-time expenses as proposed by the Distribution Licensee and validated by the Commission. "

Further the Petitioner has also considered the methodology provided in the Hon'ble Commission's approach note for calculation of O&M Expenses dated February 23rd, 2017. The Petitioner has considered the base year as '2014-15', for which the audited accounts are available as on the date of submission of the Multi-Year Tariff Petition. The Petitioner in the following table has worked out the norms depicting cost of A&G expenses per 1000' employees based on the actual A&G expenses incurred during the past five financial years:

Table 8-12: Norms - Rs. Crore A&G Cost per 1000' Consumers

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	Average 5 years
Gross A&G Expenses	55.63	75.31	79.35	100.86	91.70	
No. of Consumers	2,280,313	2,426,261	2,566,021	3,099,144	3,229,391	0.029
Norms per 1000 consumer	0.024	0.031	0.031	0.033	0.028	

The Petitioner has considered the above worked out norm of Rs. Crore A&G cost per 1000' Consumers as the A&G cost per 1000's consumer for the middle year i.e. for FY 2013-14 and has thereafter applied the yearly increase in the CPI inflation Index for FY 2014-15, 2015-16 and 2016-17 to reach the base year norms, for the purpose of calculation of A&G expenses for the MYT Period. The determination of Rs. Crore A&G cost per 1000' employees and thereafter the total A&G cost in Rs. Crore for the Control period is depicted in the table below:

Table 8-13: A&G Expenses for the MYT Period (Rs. Crore)

Particulars	Base Value	2016-17	2017-18	2018-19	2019-20
CPI Inflation		3.67%	1.83%	1.83%	1.83%
Norms per 1000 consumer (Rs Crore)	0.029	0.030	0.031	0.031	0.032
No. of Consumers		3,663,851	4,884,220	7,004,281	8,005,838
A&G Expenses (Rs. Crore)		**111.29**	**151.07**	**220.62**	**256.79**

Currently, no amounts have been claimed under the entitlement "Provision" provided by the MYT Distribution Regulations. However, the Petitioner reserves the right to claim any deviation in A&G expenditure owing to any "cost for initiatives or other one-time expenses" at the stage of truing up.

8.4 OPERATION AND MAINTENANCE EXPENSES FOR FY 2017-18 TO 2019-20

The allowable O&M expenses as claimed by the Petitioner in the instant petition for the control period FY 2017-18 to FY 2019-20 are depicted in the table below:

Table 8-14: Allowable O&M Expenses for MYT control period (Rs Crore)

Particulars	FY 2017-18 Projected	FY 2018-19 Projected	FY 2019-20 Projected
Employee Expenses			
Gross Employee Costs and Provisions	744.22	1,080.47	1,301.45
Arrear of Pay Commission/Time Scale	148.61	199.05	195.22
Gross Employee Expenses	**892.83**	**1,279.52**	**1,496.67**
Employee expenses capitalized	133.92	191.93	224.50
Net Employee Expenses	**758.91**	**1,087.59**	**1,272.17**
A&G Expenses			
Gross A&G Expenses	151.07	220.62	256.79
Gross A&G Expenses	151.07	220.62	256.79
A&G expenses capitalized	22.66	33.09	38.52
Net A&G Expenses	**128.41**	**187.53**	**218.27**
R&M Expenses			
Repair & Maintenance Expenditure	526.44	655.65	803.43
Gross Repair & Maintenance Expenses	**526.44**	**655.65**	**803.43**
Gross O&M Expenses	1,570.35	2,155.79	2,556.89
Less: Capitalsed	156.59	225.02	263.02
Total O&M Expenses Allowable as per Regulations	**1,413.76**	**1,930.77**	**2,293.87**

The Petitioner submits that increase in dearness pay may be higher than the escalation index determined as per the Distribution Tariff Regulations. It is humbly prayed that any variation in employee expenses due to increase in dearness pay, may be considered by the Hon'ble Commission, at the time of true-up for the relevant year; based on specific submissions by the Petitioner in this regard.

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम लि०, आगरा

8.5 CAPITAL EXPENDITURE, CAPITAL FORMATION ASSUMPTION AND GROSS FIXED ASSET (GFA) BALANCES

In line with the Regulation 23A of the MYT Distribution Tariff Regulations, 2014, the Petitioner has provided the detailed breakup of scheme wise capital expenditure proposed during the control period in its business plan for the purpose of determination of ARR for the Control period along-with the financing plan for each of the capex scheme proposed and the details of capital expenditure to be done from the deposit works received as consumer contribution towards cost of capital asset. The complete details of the capital investment schemes for FY 2017-18 and 2019-20 are provided in the MYT Business Plan of the Distribution Licensee which is being submitted along with this petition. The physical and financial progress of the ongoing and new capex schemes has also been provided in the MYT Business Plan.

Accordingly, the summary of the total Proposed Capital Expenditure for each year of the Control period is depicted in the tables below:

Table 8-15: Summary of Proposed Capital Expenditure during the Control Period (Rs Crore)

FY	Loans	Equity / Internal Accruals	Deposit Works	Total
2016-17	1167.83	500.50	233.57	**1901.90**
2017-18	1348.17	577.79	269.63	**2195.59**
2018-19	1,636.07	701.17	327.21	**2664.45**
2019-20	865.36	370.87	173.07	**1409.29**

8.6 FINANCING OF THE CAPITAL INVESTMENT

The Petitioner has considered a normative gearing of 70:30. Considering this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be financed through equity contributions. The portion of capital expenditure financed through consumer contribution, capital subsidies and grants has been separated as the depreciation and interest thereon would not be charged to the beneficiaries.

The amounts received as consumer contributions, capital subsidies and grants are traced from the provisional accounts for FY 2015-16. Further, the consumer contributions, capital subsidies and grants for 1st Control Period have been considered to be in the same ratio to the total investments, as received by it in FY 2014-15 for which the audited accounts are available.

The table below summarizes the amounts considered towards consumer contributions, capital grants and subsidies for the MYT control period:

Table 8-16: Consumer Contribution, Capital Grants & Subsidies (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Opening Balance of Consumer Contributions, Grants and Subsidies towards Cost of Capital Assets	1,569.71	1,603.36	1,619.72
Additions during the year	269.63	327.21	173.07
Less: Amortisation	235.98	310.86	392.78
Closing Balance	**1,603.36**	**1,619.72**	**1,400.01**

Table 8-17: Financing of the Capital Investment (Rs Crore)

Particulars	Derivation	2017-18	2018-19	2019-20
Investment	A	2,195.59	2,664.45	1,409.29
Less:		-	-	-
Consumer Contribution	B	269.63	327.21	173.07
Investment funded by debt and	C=A-B	1,925.95	2,337.24	1,236.22

मुख्य अभियन्ता (वाणिज्य)
उ0प्र0पा0नि0लि0, आगरा

Particulars	Derivation	2017-18	2018-19	2019-20
equity				
Debt Funded	70%	1,348.17	1,636.07	865.36
Equity Funded	30%	577.79	701.17	370.87

Thus, the Petitioner submits that the capital investments proposed during the MYT period after netting off the capital investment through deposit works, has been considered to be funded through debt and equity of 70:30, as depicted in the above table.

8.7 DEPRECIATION EXPENSE

The summary of the Depreciation claimed for each year of the MYT Period is provided in the table below:

Table 8-18: Gross Allowable Depreciation for 1st MYT control period (Rs Crore)

Particulars	Derivation	2017-18	2018-19	2019-20
Opening GFA	A	7,578.70	9,167.87	11,324.97
Additions to GFA	B	1,589.17	2,157.10	2,020.21
Deductions to GFA	C	-	-	-
Closing GFA	D	**9,167.87**	**11,324.97**	**13,345.18**
Cumulative Depreciation	E	3,030.49	3,208.14	3,442.18
Rate of Depreciation (%)	F	7.74%	7.74%	7.74%
Gross Allowable Depreciation	**((A-E)+B/2)*F**	**413.63**	**544.90**	**688.48**

The Petitioner has also projected the depreciation on assets created out of consumer contributions, capital grants and subsidies for the 1st Control period in the same ratio as per the audited accounts of FY 2014-15. The Petitioner has reduced the equivalent depreciation in respect of depreciation on assets created out of consumer contributions, capital grants and subsidies from the Gross Allowable Depreciation to arrive at Net Allowable Depreciation for the purpose of ARR determination.

Thus, the net allowable depreciation for the 1st Control Period has been depicted in the table below:

Table 8-19: Net Allowable Depreciation for the 1st Control Period (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Gross Allowable Depreciation	413.63	544.90	688.48
Less: Equivalent amount of depreciation on assets acquired out of the Consumer Contribution and GoUP Subsidy	235.98	310.86	392.78
Net Allowable Depreciation	**177.66**	**234.03**	**295.70**

8.8 INTEREST ON LONG TERM LOANS

It is reiterated that the Petitioner has considered a normative tariff approach with a gearing of 70:30. In this approach, 70% of the capital expenditure undertaken in any year has been considered to be financed through loan and balance 30% has been considered to be funded through equity contributions. The portion of capital expenditure financed through consumer contributions, capital subsidies and grants has been separated as the depreciation and interest thereon has not been charged to the beneficiaries.

Allowable depreciation for the year has been considered as normative loan repayment. The weighted average rate of interest of overall long term loan portfolio for FY 2014-15 has been considered for 1st Control Period, as it seems to be fair and equitable. The interest

मुख्य अभियन्ता (वितरण)
दक्षिणांचल वि०लि०, आगरा

capitalization has been considered at a rate of 23% which is consistent with the rate considered by the Hon'ble Commission in previous tariff orders.

The computations for interest on long term loan are depicted below:

Table 8-20: Allowable Interest on Long Term Loans for MYT Control Period (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Opening Loan	3,240.54	4,411.06	5,813.09
Loan Additions (70% of Investments)	1,348.17	1,636.07	865.36
Less: Repayments (Depreciation allowable for the year)	177.66	234.03	295.70
Closing Loan Balance	**4,411.06**	**5,813.09**	**6,382.75**
Weighted Average Rate of Interest	10.16%	10.16%	10.16%
Interest on long term loan	388.89	519.64	619.85
Interest Capitalisation Rate	23.00%	23.00%	23.00%
Less: Interest Capitalized	89.45	119.52	142.57
Net Interest Charged	**299.45**	**400.12**	**477.29**

8.9 FINANCE CHARGES

The Petitioner has projected finance charges towards expenses such as guarantee fees and bank charges to the tune of Rs. 0.69 crore, Rs. 0.72 crore and Rs. 0.75 crore in FY 2017-18, FY 2018-19 and 2019-20 respectively. The same have been computed by extrapolating the guarantee fees and bank charges derived for FY 2015-16 by using the Inflation Index of 3.89%.

8.10 INTEREST ON CONSUMER SECURITY DEPOSITS

In the MYT Petition, the Petitioner has computed the interest to be paid on the consumer's security deposits on the Average of opening and closing balance of the Security Deposits for the year, at SBI bank rate of 9.36%. However, the same shall be trued up based on audited accounts. The opening balances of security deposits have been considered as per closing figures of provisional accounts for FY 2015-16 and additions during the year 2016-17 is estimated in line with the projected load growth, as depicted in the load forecast model.

Table 8-21: Interest on Consumer Security Deposits (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Opening Balance for Security Deposit	464.38	496.28	531.53
Additions during the year	31.89	35.26	39.05
Closing Balance for Security Deposit	**496.28**	**531.53**	**570.58**
Rate of Interest	9.36%	9.36%	9.36%
Interest Paid / Payable on Security Deposits	**44.96**	**48.10**	**51.58**

8.11 INTEREST ON WORKING CAPITAL

In accordance with the MYT Distribution Regulations, the interest on the working capital requirement is to be considered equal to the State Bank Advance Rate (SBAR) as notified on the current date i.e. 14.05%. Considering the methodology as prescribed in the MYT Distribution Regulations, the Petitioner has worked out the working capital requirement for each year of the Control period and interest thereon, as shown in the table below:

Table 8-22: Allowable Interest on Working Capital (Rs Crore)

Particulars	2017-18	2018-19	2019-20
One month's O & M Expenses	130.86	179.65	213.07
Maintenance spares @ 40% of R&M expenses for two months	35.10	43.71	53.56

Net Interest & Finance Charges	**555.27**	**714.21**	**837.14**

8.13 PROVISION FOR BAD AND DOUBTFUL DEBTS

The Petitioner has made provisions for bad debts for the 1st Control Period in line with the provisions stipulated in the MYT Distribution Regulations. The Provision for Bad and Doubtful Debts for 1st Control Period are summarized in the table below:

Table 8-24: Provision for Bad and Doubtful Debts (Rs Crore)

Particulars	2017-18	2018-19	2019-20
Opening Receivables	9,145.08	9,797.02	10,455.87
Add: Revenue Assessment	10,957.06	13,176.84	14,956.52

Closing Receivables	9,797.02	10,455.87	11,009.26
Average Receivables	9,471.05	10,126.45	10,732.56
Percentage of Bad and Doubtful Debts	2.00%	2.00%	2.00%
Provision for Bad Debts	**189.42**	**202.53**	**214.65**

8.14 NON TARIFF INCOME

Non Tariff Income includes incomes such as interest on loans and advances to employees, income from fixed rate investment deposits, interest on loans and advances to licensees and other miscellaneous income from retail sources. The Petitioner has projected non-tariff income to the tune of Rs. 29.78 crore, Rs. 30.94 crore and Rs. 32.15 crore in FY 2017-18, FY 2018-19 and 2019-20 respectively. The same have been computed by extrapolating the non-tariff income booked in provisional accounts for FY 2015-16 and by using the Inflation Index of 3.89%. The same has been summarized below:

Table 8-25: Other Income (Rs Crore)

मुख्य अभियन्ता (वाणिज्य)
दक्षिणांचल विद्युत वितरण निगम, आगरा

Particulars	2017-18	2018-19	2019-20
Non-Tariff Income	29.78	30.94	32.15

8.15 REASONABLE RETURN / RETURN ON EQUITY

The Petitioner has claimed the following eligible return on Equity as detailed in the table below:

Table 8-26: Return on Equity during the MYT Period

(in Rs. Crore)

Particulars	#	2017-18	2018-19	2019-20
Opening Balance of Equity Base	A	1,889.23	2,299.23	2,855.77

UTTAR PRADESH SHASAN
URJA ANUBHAG-2

In pursuance of the provisions of clause (3) of Article 348 of the Constitution, the Governor is pleased to order the publication of the following English translation of notification no. 1528/24-P-2-2015-Sa.(218)/2014 dated 03 November, 2015 for general information

NOTIFICATION

No. 1528/ 24-P-2-2015-Sa.(218)/2014
Lucknow, Dated: 03 November, 2015

In exercise of the powers conferred under sub-section (4) of section 131 of the Electricity Act, 2003(Act no. 36 of 2003) and sub-section (4) of section 23 of the Uttar Pradesh Electricity Reforms Act, 1999 (U.P. Act no. 24 of 1999) read with clause 7 of the Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 (Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003), the Governor hereby modifies, varies and otherwise changes the terms and conditions of the said Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 in regard to the transfer of properties, interests, rights, liabilities, personnel and proceedings by this notification by substituting in place of Schedules A to D of the Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003, the Schedules A to D attached to this notification.

2. The effective date of the provisionality period under the Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 (Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003) as extended by the Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) (Sixth Amendment), Scheme 2008 (Notification no. 2131 / P – 2 - 2008 I 24 – 61 (M) E / 2000 Lucknow dated October 10, 2008) has lapsed on December 11, 2009. The Governor hereby modifies, varies and otherwise changes the terms and conditions of the Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 (Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003) to provide for the provisionality period to be as under:

For sub-clauses (1), (2) and (3) of clause 7 of the Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 shall stand substituted as follows:-

(1) The classification and transfer of Undertakings under clause 3, unless otherwise specified in any order made by the State Government, shall be provisional and shall be final upon the expiry of **thirteen** years from the date

of issuance of the Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003.

(2) At any time within a period of **thirteen** years from the date of issuance of the Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003, the State Government may by order to be notified amend, vary, modify, add, delete or otherwise change terms and conditions of the transfer including items included in the transfer or the value thereof, and transfer such properties, interests, rights and liabilities forming part of an Undertaking of one Transferee to that of any other Transferee or to the State Government in such manner and on such terms and conditions as the State Government may consider appropriate. Upon such orders having being passed, the relevant Schedule shall stand amended accordingly.

(3) On the expiry of the period of **thirteen** years from the date of issuance of the Notification no. 2740/P-1/2003-24-14P/2003 dated August 12, 2003 or the date on which the Final Transfer Scheme is published in the Gazette, whichever is earlier, subject to any directions given by the State Government, the transfer of Undertakings, properties, interests, rights and liabilities made in accordance with this Scheme shall become final.

3. The Uttar Pradesh Power Sector Reforms (Transfer of Distribution Undertakings) Scheme, 2003 shall be effective for all intent and purposes with the above modifications as from the date of the effective date of transfer i.e. August 12, 2003.

4. Notwithstanding anything contained in this notification, the foregoing provisions shall not apply to the transfer of personnel.

By Order,

(Sanjay Agarwal)
Principal Secretary

SCHEDULE -'A' – PART I

ZONE I DISTRIBUTION UNDERTAKINGS

I. DISTRIBUTION ASSETS:

All 33 kV, 11 kV, LT. (Single phase 2 wire to 3 phase 5 wire) lines (with overhead lines, Aerial Bunched cables and underground cables), and lines above 33 kV directly going to consumers from transmission Grid sub-stations, on different types of supports with various sizes of conductors and step up/step down transformers, breakers, protective and metering devices and control rooms, testing laboratories, lands (including right of way), buildings, roads, diesel generating sets or other conventional and non-conventional generating units, service connections and installations inside consumer's premises, street lighting and signal systems owned by or leased to the UPPCL but excluding fittings, fixtures and installations owned, by private persons or local authorities.

II. GENERAL ASSETS/LIABILITIES:

Special tools and equipment, material handling equipment, earth movers, bulldozers, concrete mixtures, cranes, trailers, heavy and light vehicles, furniture, fixtures, office equipment, air conditioners, refrigerators, computers and signal systems, spares, consumables, raw materials, lands and civil works installations including roads, buildings, schools, dispensaries, testing laboratories and equipment, training centers, workshops, works in progress, machineries and equipment sent for repairs, scrap and obsolete materials.

III. OTHER ASSETS:

Other assets and movable properties including plant and machinery, motor car, jeeps, trucks, cranes, trailers and other vehicles, furniture, fixtures, air conditioners, computers, etc. to the extent they are utilized and operated by or associated with the assets referred to under clauses I. and II above shall also form part of Distribution Undertakings.

IV. MISCELLANEOUS:

1. Contracts, agreements, interest and arrangements to the extent they are associated with or related to distribution activities or to the Undertakings or assets referred to in clauses I, II, and III above.

मुख्य अभियन्ता (वाणिज्य)

2. Loans, secured and unsecured to the extent they are associated with or related to distribution activities or to the Undertakings or assets referred to in clauses I, II, and III above.

3. Cash and bank balance to the extent they are associated with or related to distribution activities or the Undertakings or assets referred to in clauses I, II, and III above.

4. Other Current Assets to the extent they are associated with or related to distribution activities or to the Undertakings or assets referred to in clauses I, II, and III above.

5. Other Current liabilities and provisions to the extent they are associated with or related to distribution activities or to the Undertakings or Assets referred to in clauses I, II, and III above.

6. Contingent liabilities to the extent they are recognised and are associated with or related to distribution activities or to the Undertakings or Assets referred to in clauses I, II, and III above.

7. Share capital of the U.P. Power Corporation Ltd. to the extent required to match the assets and liabilities referred in clauses I, II and III above.

8. Other liabilities to the extent they are associated with or related to distribution activities or to the Undertakings or Assets referred to in clauses I, II, and III above.

9. Proceedings to the extent they are associated with or related to distribution activities or to the Undertakings or Assets referred to in clauses I, II, and III above.

V. In consideration of the transfer as mentioned above, the UPPCL shall be issued 1,34,85,019 shares of face value of Rs 1000/- each in the Agra Discom.

उत्तर प्रदेश शासन
ऊर्जा अनुभाग-2

अधिसूचना

संख्या 1528/24-पी-2-2015 एसए.(218)/2014
लखनऊ, दिनांक 03 नवम्बर,2015

उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 (अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003) के खण्ड 7 के साथ पठित विद्युत अधिनियम, 2003 (अधिनियम संख्या 36, सन् 2003) की धारा 131 की उपधारा (4) तथा उत्तर प्रदेश विद्युत सुधार अधिनियम, 1999 (उत्तर प्रदेश अधिनियम संख्या 24, सन् 1999) की धारा 23 की उपधारा (4) के अधीन प्रदत्त शक्ति का प्रयोग करके एतद्द्वारा राज्यपाल सम्पत्तियों, हितों, अधिकारों, दायित्वों, कार्मिकों तथा कार्यवाहियों के अन्तरण के सम्बन्ध में अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003 की अनुसूची क से घ के स्थान पर इस अधिसूचना के साथ संलग्न अनुसूची क से घ के प्रतिस्थापन द्वारा इस अधिसूचना के माध्यम से उक्त उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 की निबन्धन एवं शर्तों में उपान्तरण, फेर-बदल और अन्यथा परिवर्तन करते हैं।

2. उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 (अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003) के अधीन सामयिकता अवधि की प्रभावी तिथि, जैसा कि उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) (छठा संशोधन) स्कीम, 2008 (अधिसूचना संख्या 2131/पी-2-2008-24-61 (एम) ई/2000 लखनऊ दिनांक 10 अक्तूबर, 2008) द्वारा विस्तारित की गयी थी, दिनांक 11 दिसम्बर, 2009 को समाप्त हो गयी। एतद्द्वारा राज्यपाल निम्नानुसार सामयिकता अवधि हेतु उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 (अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003) की निबन्धन एवं शर्तों में उपान्तरण, फेर-बदल और अन्यथा परिवर्तन करते है:-

उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 के खण्ड 7 के उपखण्ड (1), (2) एवं (3) के स्थान पर निम्नवत प्रतिस्थापित होंगे:-

(1) खण्ड 3 के अधीन उपक्रमों का वर्गीकरण और अन्तरण, जब तक कि राज्य सरकार द्वारा दिये गये किसी आदेश में अन्यथा विनिर्दिष्ट न हो, अनन्तिम होगा और अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003 के निर्गमन की तिथि से तेरह वर्षों के अवसान पर अन्तिम होगा।

मुख्य अभियन्ता (वाणिज्य)
दक्षिविवनिलिमि, आगरा

(2) अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003 के निर्गमन की तिथि से तेरह वर्षों की अवधि के भीतर किसी भी समय राज्य सरकार, अधिसूचित किये जाने वाले आदेश से, अन्तरण को, जिसमें अन्तरण में सम्मिलित मदें या उनके मूल्य सम्मिलित हों, संशोधित, परिवर्तित, उपान्तरित, परिवर्धित, विलोपित या अन्यथा उसके निबन्धन और शर्तों में परिवर्तन कर सकती है, और ऐसी सम्पत्तियों, हितों, अधिकारों और दायित्वों को जो एक अन्तरिती के उपक्रम का भाग हों, किसी अन्य अन्तरिती को या राज्य सरकार को ऐसी रीति से और ऐसे निबन्धन और शर्तों पर, जिसे राज्य सरकार समुचित समझे, अन्तरित कर सकती है। ऐसे आदेशों के पारित होने पर सुसंगत अनुसूची तद्नुसार संशोधित हो जायेगी।

(3) अधिसूचना संख्या 2740/पी-1/2003-24-14पी/2003 दिनांक 12 अगस्त, 2003 के निर्गमन की तिथि से तेरह वर्षों की अवधि के अवसान पर या वह तिथि जिस पर अन्तिम अन्तरण स्कीम गजट में प्रकाशित होती है, इनमें जो भी पहले हो, राज्य सरकार द्वारा दिये गये किन्हीं निदेशों के अधीन रहते हुए उपक्रमों, सम्पत्तियों, हितों, अधिकारों और दायित्वों का इस स्कीम के अनुसार किया गया अन्तरण, अन्तिम हो जायेगा।

3. उत्तर प्रदेश ऊर्जा क्षेत्र सुधार (वितरण उपक्रमों का अन्तरण) स्कीम, 2003 उपरोक्त उपान्तरणों सहित सभी अभिप्रायों एवं प्रयोजनों के लिए अन्तरण की प्रभावी तिथि, अर्थात दिनांक 12 अगस्त, 2003 से, प्रभावी होगी।

4. इस अधिसूचना में अन्तर्विष्ट किसी अन्य बात के होते हुये भी, कार्मिकों के अन्तरण पर पूर्वगामी प्रावधान लागू नहीं होंगे।

आज्ञा से,

(संजय अग्रवाल)
प्रमुख सचिव

अनुसूची-'क' - भाग- एक
(जोन- i वितरण उपक्रमों)

एकः वितरण आस्तियां

विभिन्न आकार के कन्डक्टरों और स्टेप-अप और स्टेप-डाउन ट्रांसफार्मरों, ब्रेकरों, संरक्षण और मीटरमापी युक्तियों के साथ विभिन्न प्रकार के अवलम्बों पर शीर्षस्थ लाइनें, एरियल बंच्ड और भूमिगत केबिलों पर 33 के0वी0, 11 के0वी0, एल0टी0 (एकल फेज के 2 वायर से 3 फेज के 5 वायर) की समस्त लाइनें एवं 33 के0वी0 से ऊपर की लाइनें जो पारेषण ग्रिड उप-संस्थान से सीधे उपभोक्ता को जा रही हैं, और नियन्त्रण कक्ष, परीक्षण प्रयोगशालायें; भूमि (मार्ग के अधिकार सहित), भवनों, सड़कें, डीजल उत्पादक सेट्स या अन्य परम्परागत और अपारम्परिक उत्पादन इकाईयां, उपभोक्ता परिसरों के भीतर सेवा संयोजन और प्रतिष्ठापन, उ0प्र0पा0का0लि0 के स्वामित्वाधीन या उसे पट्टे पर दी गयी मार्ग प्रकाश और सिग्नल प्रणालियां, किन्तु इसके अन्तर्गत निजी व्यक्तियों या स्थानीय प्राधिकारियों के स्वामित्वाधीन फिटिंग्स, फिक्स्चर्स और प्रतिष्ठापन नहीं हैं।

दोः सामान्य आस्तियां/दायित्व

विशेष उपकरणों और उपस्कर सामग्री, प्रयुक्त उपस्कर, मिट्टी हटाने का यन्त्र, बुलडोजर्स, कंक्रीट मिक्स्चर्स, क्रेन्स, ट्रेलर्स, भारी और हल्के वाहनों, फर्नीचर, फिक्स्चर्स, कार्यालय उपस्कर, वातानुकूलक, रेफ्रीजिरेटर्स, कम्प्यूटर्स और सिग्नल प्रणाली, फालतू पुर्जे, उपभोज्य सामग्री, कच्चे माल, भूमि और सिविल संकर्म, प्रतिष्ठान जिसके अन्तर्गत सड़कों, भवनों, विद्यालयों, चिकित्सालयों, परीक्षण प्रयोगशालायें और उपस्कर, प्रशिक्षण केन्द्रों, कार्यशालाओं, चालू संकर्मो, मरम्मत के लिए भेजी गयी मशीनरी और उपस्कर, रद्दी माल और पुरानी सामग्री भी सम्मिलित है।

तीनः अन्य आस्तियां

अन्य आस्तियां और जंगम सम्पत्तियां, संयंत्र और मशीनरी, मोटरकार, जीपें, ट्रकें, क्रेन्स, ट्रेलर्स और अन्य वाहनों, फर्नीचर, फिक्सर, वातानुकूलक, कम्प्यूटर्स आदि को सम्मिलित करते हुये जिस सीमा तक वे ऊपर खण्ड-एक और दो के अधीन निर्दिष्ट आस्तियों द्वारा उससे प्रयुक्त और प्रचालित या सहयुक्त हैं, भी वितरण उपक्रमों के भाग होंगे।

चारः विविध

1. उस सीमा तक संविदायें, करारों, हित और व्यवस्थायें जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

मुख्य अभियन्ता (वाणिज्य)
द0वि0वि0नि0लि0, आगरा

2. उस सीमा तक प्रतिभूत और अप्रतिभूत ऋण जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

3. उस सीमा तक नकद और बैंक अवशेष जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

4. उस सीमा तक अन्य चालू आस्तियां जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

5. उस सीमा तक अन्य चालू दायित्व और उपबन्ध जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

6. उस सीमा तक आकस्मिक दायित्व जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से मान्यता प्राप्त हों और उससे सम्बद्ध या सम्बन्धित हों।

7. उस सीमा तक उ0प्र0 पावर कारपोरेशन लिमिटेड की शेयर पूंजी जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट आस्तियों और दायित्वों के अनुरूप होगी।

8. उस सीमा तक अन्य दायित्व जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

9. उस सीमा तक कार्यवाहियां जिस सीमा तक वे ऊपर खण्ड एक, दो और तीन में निर्दिष्ट वितरण क्रिया-कलापों या उपक्रमों या आस्तियों से सम्बद्ध या सम्बन्धित हों।

पांचः ऊपर यथा उल्लिखित अन्तरण के प्रतिफल स्वरूप उ0प्र0पा0का0लि0 को 1000 रूपये प्रत्येक के अंकित मूल्य के 1,34,85,019 शेयर आगरा डिस्काम द्वारा जारी किये जाएंगे।
